## Extrusions

### At A Glance

**We stock a wide variety of plastic, aluminum, stainless steel and solid brass extrusions**

### Products

#### Plastic Extrusions:

We work with the most advanced color labs and production facilities in the world and can duplicate or create plastic extrusions in almost any shape, color, tint, tone, transparency or translucency. For custom plastic extrusions, minimum production runs and color matching fees will apply.

We also offer plastic extrusions in a broad range of available plastics that are not listed.

<table>
<thead>
<tr>
<th>Material</th>
<th>Properties</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acrylic</td>
<td>Rigid, clear material with high clarity. Good weather resistance. Can be modified for extra strength.</td>
</tr>
<tr>
<td>Butyrate (Cellulose Acetate Butyrate)</td>
<td>Semi-rigid, clear material with excellent clarity and high gloss. Good for color matching. Can be modified for good weatherability.</td>
</tr>
<tr>
<td>Flexible PVC (Polyvinyl Chloride)</td>
<td>Flexible material. Good abrasion resistance. Self healing with good weatherability. Good for color matching. Available in finishes from matte to high gloss.</td>
</tr>
<tr>
<td>PETG (Polyethylene Terephthalate Glycol)</td>
<td>Rigid, clear material with high clarity. Good impact strength.</td>
</tr>
<tr>
<td>TPE (Thermo Plastic Elastomers)</td>
<td>Very flexible material. Available only in colors. Good performance in a wide range of temperatures.</td>
</tr>
<tr>
<td>Polycarbonate</td>
<td>Rigid, clear material with very high clarity. Lightweight with excellent strength. Good for color matching.</td>
</tr>
<tr>
<td>Polyurethane</td>
<td>Flexible to semi-rigid material. Available in clear and colors. Good abrasion and chemical resistance. Can be foamed.</td>
</tr>
<tr>
<td>Nylon</td>
<td>Rigid material. Excellent wear and abrasion resistance. Good performance in a wide range of temperatures.</td>
</tr>
<tr>
<td>Styrolux (Styrene Butadiene Block Copolymers)</td>
<td>Semi-rigid, clear material with excellent clarity and high gloss. Cost effective. Good impact resistance.</td>
</tr>
</tbody>
</table>

#### Aluminum Extrusions:

We offer aluminum extrusions in a wide variety of stocked and custom anodized and powder coated finishes in almost any color along with wood grain, marble and faux finishes.

<table>
<thead>
<tr>
<th>Material</th>
<th>Properties</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aluminum</td>
<td>6063 T5 provides good extrudability with a high quality finish and offers some corrosion resistant properties.</td>
</tr>
<tr>
<td>Stainless Steel</td>
<td>430 grade is magnetic. Added chromium provides corrosion resistant properties.</td>
</tr>
</tbody>
</table>

### In House Engineering & Custom Tool Design

With our in house tooling capabilities and exceptional network of affiliated production partners, we have the largest library of profile tooling available in the industry, enabling us to provide you with profile extrusions without the high cost and delay of having to fabricate new tooling.

Our in house engineers and affiliated production partners can assist you with the design and production of cost effective custom profile extrusions up to 12” in width or larger, manufactured to the most exacting tolerances in your choice of materials.
Depending on the properties of the material chosen, we can custom color match all of the plastic and aluminum extrusions that we offer by simply sending us a sample color swatch, chip or item to be matched.

Cutting
We offer a variety of cutting options for our plastic and semi-rigid and rigid aluminum extrusions.

Standard Cut:
Standard Cuts are utilized to reduce freight costs by cutting extrusions to specific sized lengths that can be shipped via UPS or FedEx.
- Low tolerance Standard Cuts are cut to specified sized lengths of 6’x6’, 8’x4’ or 4’x4’x4’ with a (+/- 1”) tolerance for UPS or FedEx Ground shipments
- No more than 2 cuts per length
- Costs vary by quantity and material
- Restocking fees apply to all returned items with the exception of errors on our part

Non-Standard Cut:
Non-Standard Cuts are required when cutting extrusions to specific sized lengths that do not conform to the cut sizes listed in Standard Cuts (For example, a 12’ length may be cut to 79” if desired with the customer receiving the balance of the cut length).
- Low tolerance Non-Standard Cuts are cut to specific sized lengths with a (+/- 1") tolerance
- No more than 1 cut per length
- Cuts must be made in full inch increments
- Costs vary by quantity and material
- Cut lengths may or may not meet UPS or FedEx shipping requirements
- No returns allowed with the exception of errors on our part

High Tolerance Secondary Cut
High Tolerance Secondary Cuts are suited for immediate jobsite use when cutting extrusions to specific sized lengths & tighter tolerances. (For example, a 12’ length may be cut to 17-1/4”, 69-5/16” & 56-1/8” as required).
- High Tolerance Secondary Cuts are cut to specific sized lengths with a specified (+/- 1/32” to 1/8”) tolerance
- Cuts can be made in any quantity per length to different specified sizes
- Costs and tolerances will vary by product, material and quantity of cuts
- No returns allowed with the exception of errors on our part

In Line Cut
In Line Cuts are utilized for extrusions that are custom extruded with the highest tolerances to your specified lengths, and are most cost effective for those requiring minimum production quantities of 5000’ or more.
- Providing that the minimum production quantity is met, In Line Cut extrusions can be extruded to any length with a plus side tolerance at no additional cost
- Costs and tolerances will vary by profile and material, and will need to be quoted on a per order basis
- No returns allowed with the exception of errors on our part

Secondary Application of Tape
Whereby many stocked plastic extrusions are available with rubber based, foam or adhesive tape, if required, we can apply adhesive tape either supplied by the customer or us to small quantities of selected extrusions not manufactured with adhesive tape.
- Costs will vary by product, material and quantity, and will need to be quoted on a per order basis
- No returns allowed with the exception of errors on our part

Bagging, Pack Out & Kitting
We can bag, pack out and kit specific items to your requirements in poly bags or boxes together with your extrusion order (Which may include your literature, instructions or other customer provided or purchased products). Costs will vary and will need to be quoted on a per order basis.

Drop Shipping
We can drop ship on your behalf to single or multiple locations either with or without our name or address (Blind Shipping) to meet your requirements. Quoted on a per order basis.
Flexible Polyethylene Tee Moulding

**Stock Colors Available**

- **770** Almond
- **742** Angola Brown
- **288** Beige
- **260** Black
- **131** Blue
- **386** Bronze
- **243** Storm Gray

Flexible Metallic Tee Moulding

Streamlining Wrap Around Metallic Film

Lengths: 250 Ft. Coils
Material: PVC Core • Use S1 or S7 Slotter

Finishes Available
*POL/B - Polished Brass  *POL/C - Polished Chrome
*BRU/B - Brushed Brass  *BRU/C - Brushed Chrome

unless otherwise noted

This flexible TEE MOULDING is manufactured from a soft, pliable vinyl which conforms to the contours of any product design with the highly flexible, bright finish surface and underside, it easily turns tight inside and outside corner radius.

For more Metallic Tee Moulding, please inquire.

Complete Set: 2 Wing & 4 Wing (total 6 blades)

**TEE MOULDING TOOLS**

**EDGE TRIMMER 101**

- THE-QUALITY HSS BLADE (3mm thick, 18% tungsten) has two cutting edges and, therefore, operates both forwards and backwards and effortlessly cuts off all projecting lippings neatly and completely flush—when the additional jaws are used with a chamfer of 30° or 45°. The chamfer is adjustable according to the spacing between the additional jaws.
- Supplied with a built-in blade and additional jaws 45° mounted, a pair of additional jaws 30° and on fence for plane parallel cutting—the latter for PVC and veneer edges.

**FLUSH TRIMMER**

This all metal hand tool features a precise high carbon steel cutting blade that trims excess material from the edge of the T-molding face, creating a smooth flush table or counter surface. The unique circular blade can be rotated to expose a new sharp cutting surface. This feature eliminates the need for frequent sharpening. Heavy cast aluminum housing with ball bearing roller guides facilitates easy operation.

**3RD HAND HD**

- The 3rd hand HD is the help you have been looking for. If you ever wished you had an extra hand, look no further. It is rugged, built to last a lifetime and it’s never late for work! Brace, jack or support whatever you need.
- • 360° articulating foot
- Pump jack for precision height adjustment
- Telescoping pole, 5’ to 12’ with ball detents for positive locking
- Great for hanging cabinets, drywall & crown moulding

**AS-OK-15**

REPAIR KIT

INCLUDES:
- 1 - ALL-O-RINGS
- 1 - AS-ORL-O-RINGS LUBE
- 1 - 163 BUMPER

**AS-319**

STROKE CONTROL SPACER
(available as optional accessory)

SHORTENS STROKE BY 1/4"
REDUCES HAMMERING FORCE
1. Manual Edgebander

For banding pre-glued edges on PVC, polyester, melamine and veneer. It can band both straight and shaped work pieces. Through special design of an adjustable clamp high precision work and reliability are ensured. Guillotine knife for end trimming and roll-holder included as standard equipment.

**SPECIFICATIONS:**
- Double Insulation
- Max. Banding Width - 50mm
- Temperature - 300°C (570°F) to 525°C (1000°F)
- Air Delivery - 400/min.
- Input Power - 115/230 V, 50-60 Hz.
- Weight - 2.7 Kgs
- Maximum Material Thickness - 1mm

**EBS-980**
(Includes Edge Bander, Edge Trimmer & End Trimmer)

**EBS-980-XBLADE**
(Replacement Blade)

---

2. Edge Trimmer

Double edge trimmer. Cuts both sides simultaneously, finishing operations. For edges up to 40mm. For larger edges it can be used as two independent edge trimmers. Top quality long life blades which are easy to replace once worn.

**Hands Held Edging Banding Applicator**

The H40 Edgemate Applicator is hand held and perfect for smaller jobs. It has an adjustable thermostat - from 250° - 450°. Heating element is also available.

**DELIVERS QUICK CLEAN CUTS**
- Plastic Tubing - Rubber
- Weather Stripping
- Rope - Twine - Leather
- Plants/Shrubs - Crafts
- Wood Trim - Carpeting
- Linoleum - Auto Trim
- Auto Belts & Hoses - Nylon and much more!

---

3. End Trimmer

Manual end trimmer. It allows a perfect, clean and high quality cut on all the corners of the board. No other finishing operations are needed. Equipped with double sided blades.

**Hand Held Edging Applicator**

**CL46 Clipper**

- Replacement stainless steel blades (previously carbon)
- New convenient blade storage in the handle blade tray slips into handle for storage of extra blades.
- Now available in 2 sizes: 2-1/2" & 3-7/8".
- New replacement kit contains 3 stainless steel blades and 1 anvil: complete with storage tray.

**CL46 Clipper**

**Replacement Kits:**
- CL46-25RK
- CL46RK

**Pro Carpenter Tape Measure**

- 16 ft. length
- Built-in pencil sharpener
- Erasable note pad
- Belt clip
- Locks in place from the top or bottom
- Numbers can be read from both left and right hands

**PSSR**

---

**Utility Knives / Scraper**

**BIG BLUE LARGE BREAKAWAY BLADE UTILITY KNIFE**
- Blue plastic casing
- Includes one blade with 7-point segments
- Replacement blades available

**BBK-80K**

**Replacement Blades:**
- Must be purchased in multiples of 12 pieces

BBK-80B

**DIECAST UTILITY KNIFE**
- High quality pewter die casting handle
- 10-steps positioning lock
- Lock blade compatible, each furnished with one blade

**DCB-219K**

**RAZOR BLADE SCRAPER**
- Yellow plastic casing Includes one blade
- Replacement blades available

**#598-20S**

**Replacement Blades:**
- Must be purchased in multiples of 5 pieces

#598-SB5

### Metal Like Trims
Edgebanding and profile wrapping comes in a diverse range of finishes with a clear protective film on the front, and a standard .020" thickness.

**Design for All Trim Applications**
- **Material**: Deposits of metallized plastic with a durable lacquered finish, laminated to a THERMOPLASTIC BACKER.
- **Protective Cover**
- **Can be sawed, cut or routed without delamination.**
- **Clean, finished edges without filing.**
- **Scratch resistant.**

**NOTE**: ET TRIMS ARE PRIMED FOR USE WITH AUTOMATIC EDGEBANDING EXCEPT GLOSS BLACK.

### Peel & Stick Finishes Available

INTRODUCING A COMPLETE LINE OF REHAU EDGEBOARDING

We Can Match Virtually Any Laminate Color!

FOR AUTOMATIC EDGEBOARDERS

Thin Edgeband

AVAILABLE WIDTH SIZES: 5/8", 3/4", 7/8", 15/16" & 1-5/16"
THICKNESS: .018 & .020 - 600 FT. COILS

This PVC edgebanding is ideal for thinner panels in a variety of sizes and colors.

Flexedge®

AVAILABLE WIDTH SIZES: 15/16" & 1-5/16"
THICKNESS: 3MM - 300 FT. COILS

This is a durable impact resistant semi-rigid PVC edge band, handles a radius as small as 12MM without extra pressure or excess adhesive. The flexible 3MM material trims easily and is ideal for use with contour edgebanders.

ABS is chlorine-free both in its manufacture and in the final product. Unlike PVC, ABS may be incinerated with general waste. Additionally, this thermoplastic material is impact and temperature resistant, lighter in weight and highly heat resistant. Material is produced in our North American facility according to ISO 14001 environmental standards.

### Eco Style™ ABS Edgeband

**AVAILABLE WIDTH SIZES: 15/16” & 1-5/16”**
**THICKNESS: .018, .020 - 600 FT. COILS, 3MM - 300 FT. COILS**

Glass is synonymous with clarity, light and openness, with visions™ edgeband achieves the unique appearance of real glass using lightweight, robust polymer. We create the illusion of depth by applying a decorative print to the underside of transparent Poly (Methyl Methacrylate PMMA) material. When this material is radiused or beveled, it diffuses light in the same way as real glass. By combining vision edgeband with matching boards or laminates, you can achieve the appearance of a real sheet of glass.

### Visions™ Glass Like

**AVAILABLE WIDTH SIZES: 23MM & 45MM**
**THICKNESS: 2MM - 328 FT. COILS**

Using various combination of genuine aluminum edgeband and polymers, Magic™ Metallic edgeband achieves the look and feel of metal banding without its processing drawbacks. The magic collection, offered in aluminum and stainless steel finishes, includes metallic surface, translucent and magic creativo™, a twin level solid or printed surface with metallic overlay.

### Magic™ Metallic

**AVAILABLE WIDTH SIZES: 22MM, 28MM & 43MM**
**THICKNESS: 1.5MM - 492 FT. COILS**
Half Round Trim

Material: PVC/Film - w/ Foam Tape

Flexible U-Channel Moulding

Material: PVC w/Segmented Metal Core / Aluminum Core  •  Embossed Vinyl  •  Black or White

- Used for classic car, bus, snowmobile, air and other industries
- Made with a tough PVC cover with a metal segmented core / aluminum core, our channel provides an aesthetic and protective edge trim
- Easy to install with a strong clip-on grip
- Does not need tacking, gluing or riveting
- Used with metal, plastic, fiberglass, glass and wood to cover sharp edges and flanges.
- Labor saving product that can eliminate the need to deburr or remove sharp edge and painting.

A-22

OUTWATER PLASTICS INDUSTRIES, INC. • www.outwater.com
Material: MDS Modified Nylon  •  Lengths: 100 Ft. Coils  •  Color: Dark Gray

By adding Molybdenum Disulphide to Nylon 6, our profiles feature advanced mechanical and thermal properties over plain nylon including:

- **SUPERIOR HEAT RESISTANCE**...resist distortion to 300° with a maximum continuous use temperature of 250°
- **SUPERIOR WEAR RESISTANCE AND SURFACE LUBRICITY**...in many cases outwears metal and are not vulnerable to fretting & galvanic corrosion
- **SUPERIOR DIMENSIONAL STABILITY, STRENGTH AND RIGIDITY**...maintain better fit while having greater tensile and compression strength in use

**Holes & Spacing:**
- Pre-cut pieces: 1-1/2” distance (except where noted)
- 4 ft., 8 ft. & 12 ft. Lengths: 8” on center

Note: All holes are 3/16” diameter and accommodate #10 screws.

For our Acrylic Z & W Bar, see page B-49
Reverse cove moulding is used to cover up seams or joints wherever two perpendicular planes meet. The sink top to its backsplash or the ceiling to a wall surface represent typical applications for which our reverse cove moulding was designed. The leg of the profile seals tightly against both surfaces to lend a cleanly trimmed appearance to the finished product.

Plastic Sliding Door Track

Lengths: 12 Ft.  
Material: Polypropylene

Colors Available
*WH - White  *BK - Black  
*BR - Brown  *AL - Almond  
unless otherwise noted

Upper Track
For use with:  
K101-606, K101-610, K101-601  

Styrene

Lower Double Flat Track
For 5/8” Doors  
For 3/4” Doors  

For 5/8” Doors  
For 3/4” Doors  

Lower Single Flat Track  
100 & 500 Ft. Coils

Natural Nylon White Locking Glides
For use with:  
K101-606, K101-610, K101-601  

Nylon Glides Are Recessed Into the Door
Mounts onto 1/4” mortise  
on the bottom of each door  
with a brad nail.

For Light Weight Doors

No Glides or Wheels Needed

Lengths: 12 Ft.  
Material: Styrene

Colors Available
*WH - White  *BK - Black  
*BR - Brown  *BE - Beige  

Complete Set Consists Of:
• 1 Upper Track  • 1 Lower Track

For 1/8” Doors  
* 5/32” gap  

Part #  
180-*

For 1/4” Doors  
* 5/16” gap  

Part #  
140- *

For 1/2” Doors

Part #  
120- *

For 3/4” Doors  
* 13/16” gap

Part #  
340- 

NOTE: ALL TRACK CAN BE MADE AVAILABLE WITH PRESSURE SENSITIVE TAPE. PLEASE INQUIRE.
SLIDING DOOR TRACK SYSTEM WITH WHEELS

Material: Styrene • With or Without Adhesive

Colors Available
*BK - Black  *SG - Silver Gray

For 1/4” Doors

High Quality Easy-Roll Metal Ball Bearings with Economy of Plastic Track

Complete Set Consists Of:
• 1 x 12 Ft. Length Upper Track
• 1 x 12 Ft. Length Lower Track
• 1 Wheel Per Running Ft.

NOTE: Rough Opening Less 7/8” = Door Size

Additional Wheels

Part # MTR

Without Adhesive - Available In 12 Ft. Lengths

Part # MTR2

With Adhesive - Available In 4 & 8 Ft. Lengths

Part # Length
MT38-A4 4 ft.
MT38-A8 8 ft.

SLIDING DOOR TRACK SYSTEM WITH WHEELS

Lengths: 12 Ft. • Material: PVC • Silver Gray

For 1/4” Doors

• Lower track has sidewalls to prevent rollers from slipping off track
• 1” (25.4mm) shoe allows superior gripping of glass or plywood doors
• Deep upper track to allow extra clearance and easy installation
• Zinc plated rollers with plastic wheel
• Track & shoe material is rigid PVC

- OUR MOST POPULAR ASSEMBLY-
Complete Set Consists Of:
• 1 x 12 Ft. Length Upper Track
• 1 x 12 Ft. Length Lower Track
• 1 x 12 Ft. Length Shoe
• 1 Wheel Per Running Ft.

NOTE: ALL TRACK CAN BE MADE AVAILABLE WITH PRESSURE SENSITIVE TAPE. PLEASE INQUIRE.
Recommended for Glass or Wood Doors

For 1/8” Doors
- 0.270 W x 0.150 H
- DS-150-GY

For 1/4” Doors
- 0.270 W x 0.200 H
- DS-200-GY

For 1/2” Doors
- 0.270 W x 0.250 H
- DS-250-GY

For 3/4” Doors
- 0.270 W x 0.300 H
- DS-300-GY

Recommended for Wood Doors

No Glides or Wheels Needed

Complete Set Consists Of:
- 1 Upper Track
- 1 Lower Track

For 1/8” Doors
- Part # ALU7474-M

For 1/4” Doors
- Part # ALU7474-M

For 1/2” Doors
- Part # ALU12-M

For 3/4” Doors

Ultra Pile Dust Seal / Weatherseal w/Adhesive

Lengths: 50 Ft. Coils • Color: Gray
Self supporting pile is always on center and has the integrity and consistency to ensure a tight seal.

MANY APPLICATIONS:
- Windows
- Doors
- Showcases

Part # Description
- DS-150-GY 270 W x 0.150 H
- DS-200-GY 270 W x 0.200 H

Galvanized Steel

Wheels every 5-1/2”.
Use 2/3 of the track with wheels.
Example:
6 ft. opening use 4 ft. of roller system.
