TERMS AND CONDITIONS

"Vendor":

Outwater Plastics Industries, Inc. & Architectural Products by Outwater, LLC

PRICES:

All prices are subject to change without notice. No deduction will be allowed at settlement. Minimum order is \$25.00 (Merchandise only). Orders less than this minimum will be billed as \$25.00 plus shipping charges and tax, if applicable.

NOTE:

Orders are accepted with the understanding that they will be billed at the price in effect on the day of shipment.

PAYMENT TERMS:

N30

To establish N30 terms, we must be supplied with your company's Dun & Bradstreet number (DUNS Number). Concerns not rated favorably with Dun & Bradstreet, not rated at all with Dun & Bradstreet or inactive accounts, are required to furnish, on company letterhead, four (4) trade references, the name of their bank and account number, their Federal I.D. number or CRA-issued business number, and the date and state/province their business was incorporated.

Please note: If supplying trade references, please allow 2-3 weeks for processing.

Credit Card

We accept major credit cards (Visa, MasterCard, American Express and Discover.) Please note: When authorizing us to charge your card in an amount over \$500.00, we require a signed credit card authorization form, which we will fax or email to you for your signature. Order processing will not begin until this authorization is returned to us.

C.O.D.

C.O.D. orders are no longer accepted.

Prepayment

Customers not wishing to use a credit card or set up N30 terms, may prepay orders. Please speak with your sales representative when placing your order. We accept company checks and certified / bank checks. Order processing will not begin until we receive payment. Non-certified checks (company or personal) may take an additional five business days after receipt before order processing will begin.

Other Terms

Large orders, Custom or Special Order items may require certified funds and/or a deposit, regardless of existing credit terms. If applicable, this will be discussed at time of order. If a deposit is required, order processing will not begin until deposit is received by us. Should deposit be sent in the form of a non-certified check, it may take an additional five business days after receipt before order processing will begin.

WARRANTY:

All merchandise is produced to standard and commercial tolerances. Vendor warrants product to be free from defects in workmanship and material. When Vendor has determined that a product is defective, it will be replaced. At Vendor's discretion, a credit may be offered instead of replacement. Vendor liability is limited to the cost of the defective product. No other warranty is expressed or implied.

LIABILITY:

The customer shall test and verify the suitability of the product for intended use. No warranty for intended use is made. The customer assumes all risk and liability. Vendor's only obligation is replacement or credit for product proven defective. Vendor shall not be liable for any loss or damage from the use or inability to use the product.

TECHNICAL ADVICE:

Any technical advice furnished or recommended by Vendor or any representative of Vendor concerning any use or application of any product is believed to be reliable but the company makes no warranty of results obtained. The customer shall test for and verify suitability for intended use.

FREE SAMPLE POLICY:

Reasonable sample quantities are available at no charge for many of the products within this catalog; to test their suitability for your intended use or application. Most samples are shipped free of charge via standard U.S. mail or UPS ground. Other shipping options are available, at customer's expense. Please discuss with our sales representatives.

MERCHANDISE RETURN POLICY:

Merchandise may not be returned for credit without prior authorization from our Customer Service department. Please have your order number available when contacting us.

- You may return most items purchased for a partial refund within 30 days of purchase. A restocking fee will apply and shipping charges will not be refunded. Restocking fees as follows:
 - 20% restocking fee applies to most stock items. Some dropship items will be subject to a higher restocking fee. Where applicable, fees are stated within our catalog.
 - 40% restocking fee applies on items that have been cut for shipping purposes. Custom or Special order items may not be returned.
- Refund will only be issued in the original form of payment.
- Customer is responsible for the shipping cost of items returned. Be mindful of packaging as any damage during return shipment is the responsibility of the customer.
- Returned material must be received in original condition.
- Any products cut, altered, modified or installed by the customer may not be returned.
- We reserve the right to refuse unauthorized returns. Unauthorized returns will be returned to the customer at their expense.

DAMAGE/LOSS:

- Upon receiving your shipment, please inspect the packages carefully for signs of damage. Check contents for damaged or missing items.
- Damage and/or loss claims must be reported within 48 hours from time of receipt!
- We utilize small parcel carriers [UPS and Federal Express] and many LTL freight carriers [such as YRC, New Penn and UPS Freight] when shipping our products. Specific instructions will vary depending on the carrier.
- If Damage/Loss is suspected, please do the following:
 - Inspect your shipment as soon as it arrives.
 - If your merchandise has arrived via LTL freight carrier, all damages/loss must be noted on the delivery receipt at time of delivery. Please take digital photographs and email to: customerservice@outwaterplastics.com.
 - Please keep all merchandise and packing material for possible inspection by the carrier.
 - Contact our Customer Service Department immediately! It is best to get in touch with us right away. Be advised that claims made after 48 hours of receipt will not be honored.

DEFECTIVE MERCHANDISE POLICY:

Every item that we sell meets our highest standards for quality and performance. If a defect in merchandise is suspected, please proceed as follows:

- Inspect merchandise for quality before altered or installed.
- Upon the finding of parts which may be defective, contact our Customer Service Department immediately! We will request digital images, a sample of the material, or a combination of both material and images to be sent to our Customer Service Department for evaluation.
- Upon review of the samples/images we will determine if replacement or refund is appropriate. Return of the defective merchandise will also be determined at this time and if deemed necessary an RMA (Return Merchandise Authorization) will be issued.
- The responsibility of Outwater Plastics and Architectural Products ends here. Any loss incurred for labor, transportation or any other expenses are not covered.

PICK UP ORDERS:

Orders placed for pick up must be picked up within 2 weeks from the date placed, or the date material becomes available. Orders not picked up within 2 weeks will be cancelled. To secure material for a longer time period; arrangements may be made for non-refundable prepayment and pick up by a specified date.

SHIPPING TERMS:

Shipments are F.O.B. shipping point.

INTERNATIONAL SHIPPING TERMS & CONDITIONS:

Items for shipment to countries outside of the U.S. may be subject to taxes, customs duties and fees levied by the destination country ("Import Fees"). The recipient of the shipment is the importer of record in the destination country and is responsible for all Import Fees. To obtain details regarding the Actual Import Fees, or to obtain documentation or receipts in connection with customs clearance, you may contact the Designated Carrier specified in your shipment confirmation.

IOV1250-*	1-1/4"

METAL LIKE TRIMS

Edgebanding and profile wrapping comes in a diverse range of finishes with a clear protective film on the front, and a standard .020" thickness.

Peel & Stick Finishes Available

DESIGNED FOR ALL TRIM APPLICATIONS

- MATERIAL: Deposits of metallized plastic with a durable lacquered finish, laminated to a THERMOPLASTIC BACKER.
- PROTECTIVE COVER
- Can be sawed, cut or routed without delamination.
- CLEAN, FINISHED EDGES WITHOUT FILING
- Scratch resistant

TOOLS

Multipurpose Cutter

GT-7000

- Heavy duty forged steel blade for extra tough materials
- Ergonomic handle for comfortable use

Optional Accessories:

CT-BLD BLADE	CT-MA	CT-SRA	CT-DRA	CT-RAA	CT-FA
MITER ANVIL For mitering at multiple angles	SINGLE RADIUS ANVIL For 1" dia. material	DOUBLE RADIUS ANVIL For 5/8" and 3/4" dia. material	RIGHT ANGLE ANVIL For 90° angles	FLAT ANVIL For straight and flat cuts	

Edge Trimmer

EBS-930

Double edge trimmer. Cuts both sides simultaneously, finishing operations. For edges up to 40mm. For larger edges it can be used as two independent edge trimmers. Top quality long life blades which are easy to replace once worn.

Replacement Blade: EBS-930-RB

Utility Knife

DIECAST UTILITY KNIFE

- High quality pewter diecast handle
- 10-steps positioning lock
- Lock blade compatible, each furnished with one blade

DCB-219K

WITH LARGE BREAKAWAY BLADE

- Blue plastic casing
- Includes one blade with 7-point segments
- Replacement blades available (BBK-80B)

BBK-80K

Made in China

PNEUMATIC TOOLS

HAND HELD AIR HAMMERS

- OVER 1000 BLOWS PER MINUTE.
- NO SWINGING.
- Can be used anywhere the smallest hand can reach. Replaces wide variety of cumbersome hammers and mallets. No skilled personnel.
- CONTROL. A single hammer blow or excess of 1000 blows per minute. Adjustable from slightest hammer tap to heavy impact blows.
- VERSATILE. Easily interchangeable hammer tips of super soft hard plastic, steel and aluminum.
- PALM SIZE-LIGHTWEIGHT-SAFE.

TEE MOULDING TOOLS

EDGE TRIMMER 101

THE QUALITY HSS BLADE (3mm thick, 18% tungsten) has two cutting edges and, therefore, operates both forwards and backwards and effortlessly cuts off all projecting lippings neatly and completely flush-when the additional jaws are used with a chamfer of 30° or 45°. The chamfer is adjustable according to the spacing between the additional jaws. Supplied with a built-in blade and additional jaws 45° mounted, a pair of additional jaws 30° and on fence for plane parallel cutting--the latter for PVC and veneer edges.

With fence for veneer edge & PVC lippings

With additional jaws 45° or 30° for plastic lippings

101-TRIMMER
101XTRA-BLADE

FLUSH TRIMMER

This all metal hand tool features a precise high carbon steel cutting blade that trims excess material from the edge of the tee moulding face, creating a smooth flush table or counter surface. The unique circular blade can be rotated to expose a new sharp cutting surface. This feature eliminates the need for frequent sharpening. Heavy cast aluminum housing with ball bearing roller guides facilitates easy operation.

992006-000-0000
992007-000-0000

NOTCHING TOOLS

The most important "quarter inch" in mitering is that small portion of the barb which is removed by the notching tool. This special "V" cut enables the moulding to negotiate small radii and sharp corners for a clean, smooth installation.

Part#	Description	Punch Thickness
P900R	Vinyl Tee Moulding Notcher - cuts 1/4" radius	0.156"
1870A	Replacement Blade	-
P900A	Aluminum & Vinyl Notcher with 1/16" opening	0.050"
1840A	Replacement Blade (A-Notch)	-
P900V	Channel and Angle Notcher with 3/32" opening	0.090"
848A	Replacement Blade	-

3RD HAND HD

The 3rd Hand HD is the help you have been looking for. If you ever wished you had an extra hand, look no further. It is rugged, built to last a lifetime and it's never late for work! Brace, jack or support whatever you need.

- 360° articulating foot
- Pump jack for precision height adjustment
- Telescoping pole, 5' to 12' with ball detents for positive locking
- Great for hanging cabinets, drywall & crown moulding

Part#	Description
3-H-HAND-HD-5	3rd Hand single pack
3-H-2PK-3-HAND-5	3rd Hand twin pack

MAGNETIC STRIP

WITH ADHESIVE BACKING*

*The adhesive is rubber-based with a protective peel coat resistant to water, detergent and alcohol. It is not recommended for use in contact with solvent such as aliphatic or aromatic hydrocarbons, ketones, esters or chlorinated hydrocarbons.

DOUBLE STICK FOAM TAPE

WITH PROTECTIVE COVER

Our rubber-based Double Stick Foam Tape works well on most surfaces including: glass, metals, painted metal, paper, finished wood and plastics (including low surface energy polyethylene and polypropylene). It is not recommended for plasticized vinyl, materials contaminated with internal or surface lubricants and surfaces that are not clean and dry. Removing the tape is best accomplished by "thumbing" it off gradually. Solvents such as MEK, lacquer thinner and turpentine will degrade the adhesive, but are hazardous to work with and can damage the surface being cleaned as well.

Polyethylene Foam Tape Rolls

- Available 1/32" or 1/16" thick
- 1/2", 3/4" or 1" Widths
- White (*WH) or Black (*BK)
- 216 Ft. Rolls

NYLA-GLIDE™ U-CHANNEL

Material: MDS Modified Nylon • Lengths: 100 Ft. Coils • Color: Dark Gray
unless otherwise noted

By adding Molybdenum Disulphide to Nylon 6, our profiles feature advanced mechanical and thermal properties over plain nylon including:

- **SUPERIOR HEAT RESISTANCE**...resist distortion to 300° with a maximum continuous use temperature of 250°
- **SUPERIOR WEAR RESISTANCE AND SURFACE LUBRICITY**...in many cases outwears metal and are not vulnerable to fretting & galvanic corrosion
- **SUPERIOR DIMENSIONAL STABILITY, STRENGTH AND RIGIDITY**...maintain better fit while having greater tensile and compression strength in use

Square Back

Material: PVC w/Segmented Metal Core / Aluminum Core • Embossed Vinyl • Black or White

- Used for classic car, bus, snowmobile, air and other industries
- Made with a tough PVC cover with a metal segmented core / aluminum core, our channel provides an aesthetic and protective edge trim
- Easy to install with a strong clip-on grip
- Does not need tacking, gluing or riveting
- Used with metal, plastic, fiberglass, glass and wood to cover sharp edges and flanges.
- Labor saving product that can eliminate the need to deburr or remove sharp edge and painting.

We can also supply custom orders without holes - minimums apply - please inquire.

Reverse cove moulding is used to cover up seams or joints wherever two perpendicular planes meet. The sink top to its backplash or the ceiling to a wall surface represent typical applications for which our reverse cove moulding was designed. The leg of the profile seals tightly against both surfaces to lend a cleanly trimmed appearance to the finished product.

BH-788- "Banner Holder" w/Snap Action

Holds up to 1/8" thick material

- Material: Styrene
- Contoured shape allows for 2 sided graphics
- Easy mount channel for hanging hardware (BH-788-H), hang banner onto the wall or from the ceiling.

Part #	Color	Length
BH-788-BK	Black	8'
BH-788-WH	White	8'

2799- "Mini Snap"

Holds up to 1/16" thick material

- Material: Rigid PVC

Part #	Color	Length
2799-BK	Black	8'
2799-WH	White	8'

BH-788-H- "Universal Hanger"

Fits into channels up to 1/4" wide

- Material: Clear Polyethylene
- Easily slides into the BH-788- "Banner Holder", HS-2010-CL "The Great Gripper" and HS-447- "Mini Snap".

Part #	Color
BH-788-H	Clear

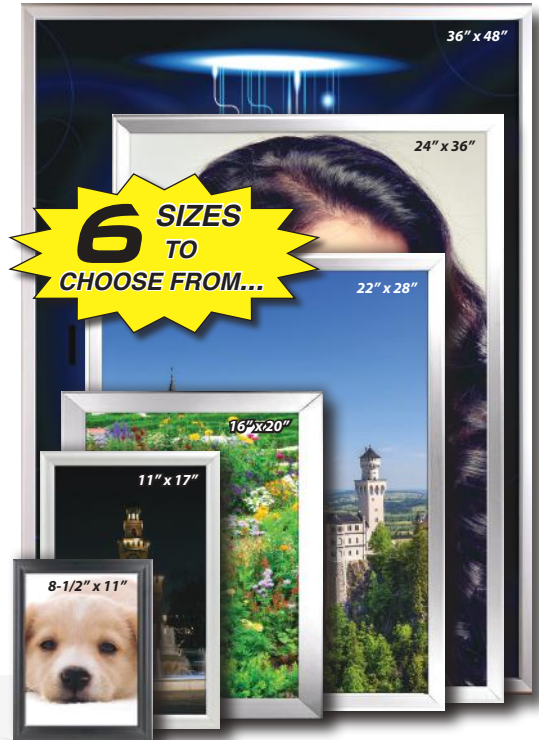

FULLY ASSEMBLED, FRONT LOADING ALUMINUM FRAMES

ATTRACTIVE AND EASY-TO-USE!

Built-in spring loaded hinge enables you to change graphics in a snap without disassembling the frame.

- Fully assembled frame comes with clear non-glare lens and back panel
- Strong aluminum construction
- Snap/Spring loaded
- Screw holes on the back for easy mounting - portrait or landscape
- Screws and drywall anchors are included
- Custom sizes and finishes available at a minimum. Please inquire for more details.

SIGN / BANNER HOLDERS

THE "SNAP-EASE" ALUMINUM BANNER HANGING SYSTEM

CLEAR ANODIZED ALUMINUM
24", 36", 48" & 96" LENGTHS

NOTE: ALL LENGTHS ARE NOMINAL

**ADDS
STYLE & VALUE**

- Clear anodized aluminum finish with 4 black plastic end caps for a "finished" look.
- The spring clips inside the rail will "snap" close to securely hold your banner in place.
- Ideal for paper, fabric and vinyl banners up to .08" thick.
- Recommend to be used at the bottom of your banner for added stability.
- Includes removable hanging clips. The banner hanging system can be attached to the wall or hung from the ceiling.

Part #	Length
SNAP-24	24"
SNAP-36	36"
SNAP-48	48"
SNAP-96	96"

Apartment Hanger

HGHB-APT-*

- **Material:** Aluminum
- No drill, easy to install
- Foam liner, so no damage to walls
- Wall bracket holes drilled every inch
- Patented/Made in USA

The Hangman Apartment Hanger consists of two aluminum interlocking brackets modeled after the French Cleat featuring a built-in level which ensures an accurate installation. The aircraft grade aluminum brackets will not corrode and can be used indoors or outdoors. The system uses small nails which leave pin size holes and a foam back to protect walls from scuffs and marks. Once installed it can be adjusted left or right.

Part #	Size	Load Rating	Hardware Includes: (1) Wall Bracket, (1) Mounting Bracket, (1) Bubble Level,	
			#8 x 5/8" Screws	Nails
HGHB-APT-6	6" Long	50 lbs.	2	5
HGHB-APT-12	12" Long	100 lbs.	3	14
HGHB-APT-18	18" Long	150 lbs.	5	20

Heavy Duty Mirror & Picture Hanger

HGHB-HM-*

- **Material:** Aluminum
- Wall bracket holes drilled every inch
- Brackets are angled to ensure a flush mount
- Patented/Made in USA

The Hangman Heavy Duty Mirror & Picture Hanger is our classic and best selling product. It consists of two aluminum interlocking brackets modeled after the French Cleat featuring a built-in level which ensures an accurate installation. The aircraft grade aluminum brackets will not corrode and can be used indoors or outdoors on all surfaces. The system includes walldog anchorless fasteners.

Part #	Size	Load Rating	Hardware Includes: (1) Wall Bracket, (1) Mounting Bracket, (1) Bubble Level,	
			#8 x 5/8" Screws	Walldog Screws
HGHB-HM-6	6" Long	75 lbs.	2	2
HGHB-HM-10	10" Long	100 lbs.	3	3
HGHB-HM-12	12" Long	100 lbs.	3	3

HGHB-HM-42	42" Long	300 lbs.	10	10

Professional French Cleat Hanger

HGHB-CBH-*

- **Material:** Aluminum
- Two piece system includes inset mounting bracket for a flush fit
- Aircraft grade aluminum
- Patented/Made in USA

The Hangman Professional French Cleat Hanger is a variation of the Heavy Duty Hangman and has several unique features. The overlapping design of the mounting bracket provides high torque leverage for use in hanging cantilevered shelves. The wall track is punched every inch making it easy to hit at least one stud. In addition to hanging shelves, it works great on cabinets, mirrors, and other heavy wall déco.

Part #	Size	Load Rating	Hardware Includes: (1) Wall Bracket, (1) Mounting Bracket, (1) Bubble Level,	
			#8 x 5/8" Screws	Walldog Screws
HGHB-CBH-18	18" Long	200 lbs.	5	5
HGHB-CBH-30	30" Long	300 lbs.	8	8
HGHB-CBH-42	42" Long	300 lbs.	10	10

Self Leveling Flushmount Hanger

HGHB-SCH-2

- **Material:** Aluminum
- Inset for a flush fit
- Aircraft grade aluminum
- Patented
- Works well with open back canvas

The Hangman Self Leveling Flushmount Hanger is a single piece hanger that attaches to the back of your canvas and hangs on the provided Bear Claw Hanger. The inset created allows the canvas to hang flush against the wall. Ideal for unframed canvas art. Also works on wooden frames.

Hardware Includes:

- (2) #4 x 5/8" Screws
- (2) Double Headed Bear Claw Screws
- (2) Sawtooths

Part #	Size	Load Rating
HGHB-SCH-2	38 x 22 mm	20 lbs.

Canvas Hanger

HGHB-CH-5

- **Material:** Aluminum
- Brackets are angled to ensure a flush mount
- Patented/Made in USA

The Hangman Canvas Hanger is a two piece bracket system that hangs giclees, gallery wraps, canvas or open back frames flush to the wall.

The wall track includes a bubble level for an accurate installation.

Hardware Includes:

- (2) #4 x 5/8" Screws
- (2) #8 x 1" Screws
- (1) Bubble Level
- (1) Mounting Bracket
- (1) Wall Bracket

Part #	Size	Load Rating
HGHB-CH-5	5" Long	20 lbs.

Aluminum Frame Hanger

HGHB-ALH-5

- **Material:** Aluminum
- Offset almost flush
- Single piece wall hanger

The Hangman Aluminum Frame Hanger is a one bracket system that is designed to hook into standard aluminum frames or specially designed wooden frames with an undercut.

The track includes a bubble level and anchorless Walldog fasteners for a fast and accurate installation.

Hardware Includes:

- (2) Walldog Screws
- (1) Bubble Level
- (1) Frame Hanger

Part #	Size	Load Rating
HGHB-ALH-5	5" Long	60 lbs.

Z-Hanger

HGZ-6948-* Z-Hanger

HGZL-6986-* Z-Lite Hanger

- **Material:** Aluminum
- **Load Rating:** 100 lbs. per ft. (HGZ-6948-*)
60 lbs. per ft. (HGZL-6986-*)
- Offset .22" (5.6 mm)
- Alternating holes every 1" (3/16" dia. & 1/4" dia.)
- Sold as pairs, including:
1" walldog screws & 5/8" bear claw screws
- HGZL-6986-*: Slight flexibility allows for easier engagement on non-plumb walls
- Sold in full cases only, where indicated (■)

The Hangman Z-Hanger consists of two aluminum interlocking brackets modeled after the French Cleat. The aircraft grade aluminum brackets will not corrode and can be used indoors or outdoors on all surfaces. The system is compatible with various fasteners, and can be adjusted left or right. Hangman's unique Z-Hanger comes with alternating holes punched every inch.

Walldog Safety Hanger

HGSH-WDH-*

- **Material:** Aluminum
- Aircraft grade aluminum
- Security lip prevents wire from slipping out
- 8 wide pivot point prevents frames from slipping
- Patented/Made in USA

The Hangman Walldog Safety Hanger is an extruded aluminum track that has a security lip to prevent picture hanging wire from slipping out. The wire is easy to insert and won't come out if bumped. The brackets are installed using anchorless Walldog fasteners that require no drilling and no stud. Friction bumpers included to keep walls clean and keep art from shifting.

Part #	Length	Load Rating	Hardware Includes:
HGSH-WDH-40	1-1/2"	40 lbs.	(1) Walldog, (1) Pair Bumper, (1) Hanger
HGSH-WDH-80	3"	80 lbs.	(2) Walldogs, (1) Pair Bumper, (1) Hanger

Bear Claw Hanger

HGSCR-*

- **Material:** Steel
- Self-drilling tip, no pilot hole required
- Works with D-rings, wire, keyhole & sawtooths
- **Load Rating:** 30 lbs. drywall, 100 lbs. stud
- Sold in full cases only

The Hangman Black Bear Claw Hangers work with D-rings, wire, sawtooths and keyholes for simple mirror and picture hanging solutions. Installs with a hand-held Phillips screwdriver. Self-drilling tip for easy installation.

IMPACT PROTECTION SYSTEM

Impact Protection can be found in a variety of settings, from hospitals and nursing homes, to colleges, offices, casinos, hotels and warehouses. Handrails, wall guards, corner guards and door/frame protection come in a multitude of colors, profiles and materials. Choose from stainless steel, aluminum, wood, PVC or combinations of materials to match the protection level your environment requires while at the same time complementing décor.

PRIMARY COLOR PALETTE

Add appropriate color code to part number.

PROMPT PRIMARY COLORS Prompt Primary colors do not apply to all products. Please refer to individual parts for inclusion.

Usually stocked for immediate shipment

Typically ships within 1 week

STANDARD PRIMARY COLORS Typically ships within 3-4 weeks

Custom Colors - 500 ft. minimum order for color matching. Color & setup charges are on a per run basis. Please inquire.

Installation - Normally with screws, molly bolts or toggle bolts. Most sold separately.

NOTE: Due to fading, discoloration & paper aging, the colors on this page may vary from the actual colors. Please request samples before placing your order for color accuracy.

IMPACT PROTECTION SYSTEM

Highly Versatile Modular Exhibition Display System

The FOGA® Fastening System offers every conceivable Aluminum Profile, Connector, Hinge and Accessory Component needed to build temporary or permanent Exhibits, Displays and Store Fixtures. All components are compatible with one another and are designed for use with industry standard hardware and accessories.

A drawing or simple sketch are all we need to take the first step in bringing your project to life. Design assistance and quotations are available. We can custom bend profiles to your exact specifications. Let us help you get started on your next project.

ALUMINUM FRAMING SYSTEM

Let Our Simple Concept Form Your Great Idea!

Our Aluminum Framing System is Available in 3/4", 1" & 1-1/2" Square Tubing and corresponding Tubing Connectors & Accessories

Great For:

- ★ *Tradeshows*
- ★ *Greenhouses*
- ★ *Menus*
- ★ *Signs*

To enhance our Aluminum Framing System, we offer full services from design to production. We can help with your design, choosing the most cost effective profiles and connectors, figuring the overall sizes for the highest yield from stock lengths, to packing your order for shipment.

Our experienced design staff can work with the simplest drawings to the newest CAD drawings to produce an aesthetically pleasing, totally functional final product. Our Fabrication Department can cut all tubing to size, notch flanges, and drill or punch holes to exacting standards so the fit and finish is unmatched. Finally, we can help with packing your order so it arrives in excellent condition.

Great Ideas Need Accessories!

LED Lens

LENS CHARACTERISTICS				
Color	Transmission	Dispersion	Surface Texture	LED Diodes
Frosted	High	Low	Pebbled	Visible
Milk White	Medium	Medium	Smooth	Slightly Visible
Opaque White	Low	High	Smooth	Not Visible

These characteristics are general descriptions.
Customers must decide which color most suits their needs.

Frosted Lens: Allows the most light transmission. This is recommended for task lighting.

Milk White Lens: Allows moderate light transmission. The effect softens the light and reduces glare. A good choice for the largest variety of lighting situations

Opaque White Lens: Allows the least light transmission. The effect softens the light, reduces glare and eliminates the "scalloping" caused by the LED's in most cases

ALUMINUM LED CHANNEL DRYWALL PROFILES

- *Material: Silver anodized aluminum*
- *Ideal for illuminating bathrooms, kitchens and similar areas.*
- *Mounts on tiles, ceramic or stoneware surfaces.*
- *Can be mounted between two tiles or used as a corner/wall ending.*
- *Suitable for LED strips with a maximum width of 12.5mm.*
- *Works with our COB24* LED strips, for a more uniform illumination.*
- *2-year guarantee on profiles and covers.*

Perforated L-shaped trim makes it is easy to fit on to concrete, thus achieving a perfect adhesion to wall.

LED LIGHTING

L-Task Aluminum LED Channel Drywall Profile Series: Aluminum Channel with Frosted Lens

Lengths: Nominal 3 Ft. (1 meter) • Material: Satin Anodized Aluminum Finish • Lens: Frosted

L-Task Lens For Aluminum LED Channel Drywall Profile: Lens Only

Note: Additional end caps available, please inquire

Lengths: Nominal 10 Ft. (3 meters) • Lens: Frosted

FLEXIBLE ALUMINUM LED CHANNEL PROFILE

New

Bend to almost any curvature an LED installation requires. Can be reshaped again or bent back to the original flat profile if needed.

Easily bend the channel to perfectly fit inside or outside turns with a radius as tight as 6"

- Works with any LED strip 12mm or less.
- Ideal for both straight runs and curved surfaces.
- Great for uneven surfaces, under cabinets and counters, around support beams and curved walls.
- Provides maximum protection against the elements.
- Quickly dissipates minimal heat created by the LEDs and extends the life of the light strips.
- Prevents rust and corrosion.
- Protects LED Light Strips from damage, breakage, moisture and unwanted handling of the lights.
- Suitable for rough indoor or outdoor use.

Easy Installation

L-TASK-34-6

Length: Nominal 6.6 Ft. (2 meters)

COB24 CCT Ribbon Flex Series

24V

Versatile & field trimmable LED ribbon can be adapted to meet many design needs. Can program color temperature ranges between 2800K-6000K.

Nominal Lengths: 16.4'

Material: Flexible White PCB with Adhesive

- This NEW color changing temperature (CCT) provides greater energy efficiency and high lumens.
- 3M Adhesive Back
- Limited 3 Year Warranty

IP20 Cut Per LED Ribbon
Provides Low Protection of Dust & Water

7" BARE WIRE ENDS CONNECT DIRECTLY TO CONTROLLER

COB2410-I640-16CCT (Up To 363 Lumens Per Foot)

Part #	Length	# Of LED Chips	Total Wattage	Max # Can Connect
COB2410-I640-16CCT	16.4'	2400	80	16.4'

Lighting Specifications

Color Temperature	2800K-6500K
Beam Spread	180°
Lumens	363 per ft.
Color Rendering Index	90
Rated Average Life	30,000 hrs.
Constant	Voltage
Chip Size	COB

Accessories for COB24 CCT Ribbon Flex Series

Required

Power Supplies

Part #	Type	Amps	Volts	Watts	Dimensions
LED-24V-3A	Desktop	3A	24V	72W	4.68"L x 2.34"W x 1.48"H
LED-24V-6A	Desktop	6A	24V	144W	6.77"L x 2.83"W x 1.57"H

For Product Details & More Power Options, Please Inquire.

Other Options: Plug In | Hardwire | Hardwire Dimmable | Rechargeable Battery

Option 1: RF Controller With Remote For CCT

LED-ADJTEM-CR2

Features:

- 3A / 24V / 72W
- Input Wire: Female DC 5.5 / Hardwire
- Output Wire: Hardwire
- Controller Size: 4-1/2"L x 2-3/16"W x 3/4"H
- Receiver Size: 3-5/8"L x 1-3/4"W x 7/8"H
- Color: White

Controller Functions:

- Mounting: Surface
- Remote Control Function: RF
- Gradient Change: 11 Grades
- Brightness Adjusting: 20 Grades
- Sound: No

Option 2: RF CCT Controller With Desktop or Wall Option

Receiver

Included With Every Dimmer
7" L x 1.75" W x .75" H
Female DC 5.5 Input Cord: 18"

- Each dimmer is paired to the included receiver. However, multiple dimmers can be paired to one receiver. (Instructions included in package)
- Range of Dimming: 10%-100%
- Push Button On/Off Function
- All dimmers work up to 50' away from receiver
- All dimmer controllers run on battery
- Limited 3 Year Warranty
- Radio frequency goes through walls

Wall Dimmer

Fits Over A Standard Receptacle Box
3.5" L x 1.37" W x .75" H
RF-CCT-CTRL-WT

Desk Top Dimmer

4" L x 1.5" W x 1.8" H
RF-CCT-CTRL-DT

For More On Radio Frequency Dimmers, Please Inquire.

ORAC

Unexpected possibilities

Whether it's a touch of the contemporary or a nod to the classics, each of our products is a chameleon, adept at taking on the character you desire. Here are some glimpses into the myriad of ways our products can animate, define and transform interiors. Every setting, every angle reveals new potential. A new story to be told.

Advantages

READY TO PAINT

All of our products are ready to paint. Colored end finishes on demand.

DURABLE

Orac products are designed to last a lifetime. Smart design and high-end technology assure strong and water resistant products.

Materials

PUROTOUCH®

A high-quality, medium-density polyurethane that allows fine details.

DUROPOLYMER®

An extruded and impact-resistant polymer based on a high-density polystyrene.

DUROFOAM®

An extruded lightweight polymer based on a low-density polystyrene blend.

FLEX

A quality high-density flexible polyurethane.

ORAC 3D Wall Coverings

We invite you to experience the extraordinary with our 3D wall coverings. Captivating sculptural landscapes, these masterpieces redefine your walls, inviting touch and exploration. Discover a range of bold and subtle designs, each a testament to the art of interior transformation.

Crafting seamless transitions from floor to wall, from the elegantly ornate to the gracefully understated. We pay meticulous attention to every detail in every design so you can find options that match your vision.

ORAC Panel Mouldings

An empty wall is like a bare base, in need of shape and dimension. Which is why we love to entertain ideas with these versatile accents. By using our panel mouldings, harmony comes into play, a sense of proportion that is balanced and pleasing to the eye.

Our indirect lighting solutions are the unseen maestros of ambiance. They are as versatile as they are subtle, designed to enhance every line and curve. So, we encourage you to integrate them as you see fit, for you to create an atmosphere that complements the time of day and the essence of the moment.

ORAC Cornice Mouldings

It truly does move us when we look up and see how it softens the strict transition between wall and ceiling. For us, a cornice is about attention to detail, be it from ornate to subtle. We have thought them all through so that there should always be an option that meets your personal aspirations.
