

Decorative MDF Screening Panels

Add a stylish flair to a variety of panel applications. Our diverse range of perforated panels are ideal for:

DSP20

- Panels are produced in "landscape" position
- Decorative Elements on Furniture
- Interior Walls and Doors
- Cabinet Doors & Drawer Fronts
- Display Fixtures
- Ceiling Panels
- All Panels are 2' High x 6' Wide x 1/8" Thick (3mm)

PAINTING:

- 1) You *must* prime the panel before painting.
- 2) When painting the MDF panels, it is recommended to use a roller or spray paint. Using a paint brush is more difficult and tends to cause brush marks.
- 3) The MDF panels may be painted on both sides if desired, for they have smooth surfaces.

** Opening represents air flow. The larger opening the more air flow. For example radiators may want larger openings & screen applications may want less.*

The Beauty of Cane

- *All natural material
(Synthetic version available - #P109-S)*
- *Can be used in a variety of applications
such as wall coverings, case good &
furniture panels, chair seats & backs,
wainscoting, picture frames and hampers.*
- *Large selection of styles to suite any decor.*

The Beauty of Cane

SYNTHETIC CANE

P109-S (1/2" Mesh Paper)
Roll Size: 2' x 50'

1600-NAT (1/2" Mesh)
Roll Size: 2' x 50'

111-NAT (3/8" Mesh)
Roll Size: 2' x 50'

607-NAT (6 Strands per Inch)
Roll Size: 2' x 50'

358-NAT (5 Strands per Inch)
Roll Size: 2' x 50'

207-NAT (3/16" Strands)
Roll Size: 2' x 50'

206-NAT (1/8" Strands)
Roll Size: 2' x 50'

- This is a natural product, the finish of each roll will vary.
- Any desired finishing must be done on the front side, (Usually the shiny side). LEAVE THE BACK SIDE ALONE! The material needs to breathe or it will dry out, become brittle and crack.
- To achieve that "natural look", use linseed or mineral oil.
- When using latex paint, spray or brush in thin layers.
- If staining, use an oil based stain.
- Please note that real cane will darken over time.

Woven Wire Grilles

Our grilles offer a creative option for fine period furniture ranging from English Country to French Provincial. For screening those areas which may compromise the aesthetics of a home or office environment, our close mesh grilles are available in a variety of designs that present an attractive fascia.

Available in electroplated metallic finishes and powder coated colors to suit any application.

Standard Sheet Sizes:

2' x 6' | 3' x 4' | 4' x 6'

Custom Sizes Also Available

16" x 42" | 18" x 24" | 18" x 48"

Available in Select Patterns & Finishes

FINISHES

BRIGHTS:

Plated finish with full depth brilliance of underlying color and high sheen.

SATINS:

A muted sheen further softened with a brushed appearance.

ANTIQUES:

A darkened surface that is then highlighted to reveal the base plate color.

DESIGNER METALLICS:

Powder coated designer finishes are produced to create a metallic look.

SOLID COLORS:

A powder coated solid color used to enhance almost any color scheme.

Finishes may differ slightly from photo. Please request a sample.

Woven Wire Grille Binders

**Complete Binder
WWG-KIT**

- Woven Wire Grille Collection
- Includes 43 patterns in over 30 finishes
- Each pattern and finish is represented throughout the binder
- 4" x 4" Sample pieces

WWG-10

- This binder includes 4" x 4" Sample pieces in our top ten patterns and finishes

Custom Cut Program

We offer custom cut sizes as well as our standard sizes. If our 2' x 6', 3' x 4' and 4' x 6' sheets are too large for your application, let us quote it for you. We suggest measuring the routed opening that the grille will need to be placed into-deduct 1/8" for clearance.

Example: Outer edge of routed opening measures 14" x 28", your measurement should be 13-7/8" x 27-7/8".

Please note: Custom cut orders have a tolerance of 1/16"

No-Route Glass / Panel Retaining Clips

- **Color:** Brown
- Designed to attach glass or decorative panels to doors without routing
- Can be screwed or stapled into place
- Available for 1/8" or 3/16" thick panels

Part #	Material Thickness	Type
R21-1804BR	1/8"	Corner
R21-1805BR	3/16"	Corner

Panel Retainers

Bronze Finish on Steel
Overall Size: 3/8" Wide x 1-3/16" Long
Screws Included

Screw adjustable, secure holding & quick removal of metal grilles. Reversible to accommodate varied glass thicknesses and door mortises. 7/8" vinyl tipped screw tightens and adjusts without harming glass.

SH-302

Expanded Metal Grilles

**LIGHT GAUGE EXPANDED ALUMINUM
3' x 4' MESH SHEETS**

EMW2

- Small leaf dense mesh for maximum concealment
- Many uses include venting, decorative applications, exterior grill-work on RV's and animal barrier screen.

Metal Thickness: .032"
Weight/Sq. Ft.: .2219 lb.
Design Size - SWD: .215", **LWD:** .390"

- **Color:** Brown
- Designed to attach glass or decorative panels to doors without routing
- Can be screwed or stapled into place
- Available for 1/8" or 3/16" thick panels

R21-1804BR

R21-1805BR

Part #	Material Thickness	Type
R21-1804BR	1/8"	Corner
R21-1805BR	3/16"	Corner

CUTTING INSTRUCTIONS:

- 1 Material can be cut using wire cutters, bolt cutters and any saw with a metal cutting blade, depending on the gauge of the wire. Each design varies with wire gauge and crimp style.
- 2 Strongly recommend that you make a template of the exact size the grilles will be cut to - heavy cardboard or scrap plywood works the best.
- 3 For smaller mesh openings (under 3/4"), plan on 1/2" spacing between any pieces they may be cutting out of standard sheet sizes. For mesh openings 3/4" and larger, plan on not less than 1" of space between each cut.

3 FT. x 4 FT. SHEETS

Larger Sheets Available Up To 4' x 8'. Minimum Order of 100 sq. ft., Please Inquire.

SWM-56

- Single crimp
- Round wire
- .054" wire size, .64" x .06" mesh size. (pattern runs in 4' direction)
- 52% open area.
- Weight = 13 lbs. each

SWM-28

- Inter crimp
- Round wire
- .063" wire size, 3/8" x 1/8" mesh size.
- 66% open area.
- Weight = 9 lbs. each

SWM-236

- Press crimp
- Round wire
- .080" wire size, 3/4" mesh size.
- 82% open area.
- Weight = 6 lbs. each

SWM-1

- Press crimp
- Flat wire
- 1/8" x 1/16" wire size, 1/8" mesh size.
- Weight = 27.25 lbs. each

SWM-30

- Flat crimp
- Round wire
- .080" wire size, .68" x .065" mesh size. (pattern runs in 4' directions)
- 33% open area.
- Weight = 22 lbs. each

SWM-9

- Flat crimp
- Flat wire
- 1/8" x 1/16" wire size, 1/2" mesh size.
- 64% open area.
- Weight = 15 lbs. each

SWM-346

- Inter crimp
- Round wire
- .063" wire size, 17/64" mesh size.
- 66% open area.
- Weight = 9 lbs. each

SWM-46

- Press crimp
- Round wire
- .047" wire size, .35" x .06" mesh size. (pattern runs in 4' direction)
- 49% open area
- Weight = 11 lbs. each
