INTRODUCING FlexLam

What is FlexLam?

FlexLam is a collection of decorative thermoplastic wall panels and ceiling tiles. Available in multiple sizes that offer design flexibility. FlexLam collections include Flat Sheets, 3D Wall Panels, Custom Digital Printing, Wainscoting and Ceiling Tiles. FlexLam can be used as flat panels in close to 50 different finishes, but are generally made with 3-dimensional patterns, making hundreds of pattern and finish combinations possible. The panels are lightweight, Class A fire-rated, and are impact, scratch, and abrasion resistant. They can be installed over most substrates and offer a great labor-saving, low maintenance design solution. The BIO (built-in-overlap) allows for most pattern to have less visible seams.

Why choose FlexLam?

- *Lightweight & flexible*
- *Easy to install*
- *Impact, abrasion, & chemical resistant properties*
- *Class A Fire Rated*
- *Hundreds of design combinations*
- *Custom options also available*
- *Economical packaged shipping to any job site*
- *Made in USA*

Create Your Formula

FlexLam offers hundreds of design and finish combinations suitable for any environment. Here's how to create your formula for success.

STEP 1: *Choose Any Pattern*

FlexLam COLLECTIONS

Flat Sheets   *p. O-4*

Non-textured 4' x 8' sheets available in 45+ finishes

MAX, LINEAR Collection & 3D Wall Panels   *p. O-8*

Textured 4' x 8' & 4' x 10' sheets available in 45+ finishes and 60+ styles

Custom Digital Printing
p. O-28

Custom images and logos printed directly onto FlexLam Flat Sheets & 3D Wall Panels

Wainscoting   *p. O-33*

30"-32" x 48" panels available in 45+ finishes and 6 styles

Door Skins   *p. O-35*

48" x 84" adhesive backed panels available in 11 finishes

Ceiling Tiles   *p. S-22*

2' x 2' & 2' x 4' tiles available in 45+ finishes and 45+ styles

FlexLam FLAT SHEETS (NON-TEXTURED)

Sheet Size: 4' x 8'
Thickness: .030"

Features:

- *Can be die cut to almost any shape needed (furniture parts, mouldings, tables, etc.)*
- *Can be bent to fit curved surfaces – from soft curves to column wraps*
- *Can be flat-laminated or profile-wrapped to various substrates*
- *Available in all FlexLam Finishes on p. O-6~7*

Great for a variety of applications:

- *Exhibits and displays*
- *Door and drawer fascias*
- *Store fixtures*
- *Cabinets, counters & shelving*
- *Moulding and framing*
- *Ceiling and wall panels*
- *RV/auto/marine*

CLASS A FIRE RATED

COLOR-THROUGH MATERIAL
Perfect for High Traffic Areas

Strikingly Beautiful, Deeply Textured, and Durable Decorative Surfacing Solutions

FlexLam MAX offers deeply textured 4' x 8' wall panels in a thicker .045" material that is color-through for superior scratch and impact resistance. These are our boldest 3-dimensional patterns to date and provide even greater depth to walls.

With six contemporary designs, FlexLam MAX will make any space the envy of everyone. All designs come with our BIO (Built-In-Overlap) system that makes installation easy and creates a less visible seam.

Combine these patterns with five new finishes to create a unique, modern look for any space.

FlexLam Fabrication & Installations

B

BIO (BUILT-IN-OVERLAP)

Our BIO has flat edges on two adjoining sides of the FlexLam Wall panel. By orienting all sheets in the same direction and overlapping the panels, the seams are less noticeable. The placement of the sheet is also more flexible so that slight imperfections in the substrate will not affect the finished look.

When overlapping four FlexLam Wall panels, it is necessary to a 1/2" notch in panels 2 and 3 to avoid a bulge where the panels meet.

BB

BEAD + BUTTON

Certain FlexLam patterns that do not have a BIO may have a Bead + Button feature. To install, overlap two or more sheets or tiles on the Bead + Button perimeter which will join at the pre-determined connection points.

FlexLam Trim

Available in 4' & 8' Lengths

FlexLam trim is available to join and finish FlexLam Structures. Edge J-Trim, Divider Trim, Inside Corners and Outside Corners and can be easily cut to size.

The Edge J-Trim simply slides onto the cut edge of the panel. Most installations use decorative wood or metal mouldings, but if these elements are not used, FlexLam Trim will finish the edges nicely.

CUSTOM PROGRAM

Two Options:

Digital printing

High-quality, full color images are placed directly onto flat or textured substrates via a direct-to-substrate ink jet printer. Company logos are a popular choice for this application in corporate buildings and retail settings.

Shown: Diamond Plate + Brushed Aluminum + Custom Printed Logo
PES48-DP-BA

Custom Cooling

Incorporates one-of-a-kind designs and logos into the material yielding a functional, durable and affordable branded surface for walls and ceilings. Minimums may apply.

INTRODUCING MetLam

What is MetLam?

MetLam is a collection of high-pressure laminates (HPL) with real aluminum, pebbled aluminum, mill aluminum, and copper steel surfaces. Available with or without a phenolic backing, these metallic sheets are easy to work with and can bend to fit curved applications. MetLam enhances the look of real metals with embossing, hand painting, etching, and other innovative techniques.

Features:

- *Real metal surface with high abrasion and chemical resistance*
- *Suitable for vertical and light-duty horizontal applications*
- *Can bend to fit curved surfaces*
- *Can be applied directly to drywall*
- *Ships with clear protective film for ease of handling*
- *UV stable (varies with installation location)*
- *Scratch and chemical resistant properties*

Create Your Formula

Metlam HPL offers a variety of high quality design solutions featuring innovative techniques to enhance the look of metals. Here's how to create your formula for success.

STEP 1: *Choose Any Pattern*

MetLam

COLLECTION: ARTFUL METALS

This collection of 15 unique metal finishes range from bright colorful patinas to rich oxidized coppers on mill satin aluminum.

Mill Satin Aluminum:
An unbacked aluminum with a satin finish

Unbacked Metal Laminates have a thicker layer of metal than laminates with phenolic paper backing. This means that when formed, the metal may maintain its shape and are stronger against impacts, chemicals, stains, and abrasions.

Shown: Funky Cold Patina + Pebble Aluminum
NM48-MIL-FCP

Features:

- *No counterbalancing required*
- *Adheres directly to most substrates, including drywall*
- *Can be bent or curved*
- *High impact & abrasion resistant*
- *Chemical resistant*
- *Stain resistant*
- *Custom or stock imagery*

A Metlam Collection Inspired by Nature and Mythology

*The Divine Elements Collection combines qualities from water and rare earth elements to celebrate the unique relationship between nature's raw power and human curiosity to bring inspiration to each day. Our new HPL finishes range from Rose Gold and Gun Metal to the iridescent Polished Smoke and classic Brushed Aluminum. The patterns draw inspiration from the natural world, including: **Mill Diamond, Waterfall, Aqua, Neptune** and **Titan** patterns. Together, these pattern and finish combinations are destined to create a legendary design like no other.*

COLLECTION: UNIQUE ART

Sheet Size: 4' x 8' | Thickness: .035"

As the name implies, Unique Art Laminates are unique works of art that offer rich colors and metals in their design. They are hand painted by artists using techniques that allow for repeatability. Protected with a high-quality lacquer process to ensure durability, these laminates can be used in both low and high-traffic areas. Since each sheet is hand painted, it should be noted that slight differences can be seen from sheet to sheet.

DECORATIVE ACRYLIC PANEL COLLECTION
FROSTED LINE
Shown: Jacquard Frosted + Acrylic

5 Acrylic Thicknesses
Our 4'x 8' acrylic panels are available in five thicknesses:
1/4", 3/8", 1/2", 3/4" & 1".

The acrylic panels are perfect for divider panels, semi-private
panels, wall panels, retail displays, inserts and more.
No matter how the panels are used to divide space,
the collection's visual weightlessness doesn't divide attention.
It's truly the icing on the cake of any room design.

- *Easy-to-install*
- *Cut-to-size available*
- *High Impact, abrasion & chemical resistant properties*

BACKLIGHT LED LAMINATE KIT

SINGLE SIDED DESIGN
From Our Idea Library

Shown: *Aspen Forest Mural*

DOUBLE SIDED DESIGN
From Our Idea Library

Shown: *Custom Aspen Forest*

Our backlighting kit is a multi-layered, ultra-thin decorative laminate that emits light evenly across its surface and has impressive impact, scratch, chemical and abrasion resistant properties. Our kit is supplied with all necessary hardware for installation.

1. FRP Panel *(.060" thick)*
2. Printed Difusser Panel *(.010" thick)*
3. Light Guide Panel *(3/16" thick, material: printed polycarbonate)*
4. Pick Your Frame!

Product Features

- *The first ultra-thin, 1/4" (6mm) backlight system with no air gap required for LEDs. This system uses a light bar and light guide panel to produce luminance across a translucent surface.*

- *A one-of-a-kind product that combines art with lighting, creating a unique focal point for any home or business.*

- *A low voltage system that comes with the necessary electrical components to simply plug into a 110-volt receptor. Can also be hardwired for permanent installations by a local electrician.*

- *Suitable for most vertical and horizontal applications.*

- *Easily fabricated with standard woodworking tools such as routers, saws and drills.*

- *Easily used to backlight your own stone, acrylic or other translucent materials with its light guide panel.*

How To Order Your Backlighting Kit

STEP 1:
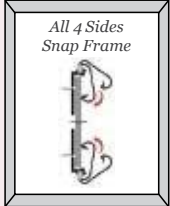

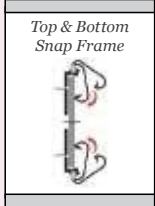

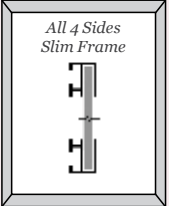

Choose Your Size Kit:

Part #	Size
LUM1648*	16" x 48"
LUM1696*	16" x 96"
LUM2448*	24" x 48"
LUM2496*	24" x 96"
LUM4848*	48" x 48"
LUM4896*	48" x 96"

Please Specify H x W For Your Graphic Direction

STEP 2:

Choose your frame kit option:

*Option *A*	*Option *B*	*Option *C*	*Option *D*	*Option *S*
All 4 Sides Snap Frame	*Top & Bottom Snap Frame*	*Top Snap Frame & Bottom J-Channel*	*Top & Bottom J-Channel*	*All 4 Sides Slim Frame*
All 4 Sides		*2 Sides*		*All 4 Sides*

STEP 3:

Choose your graphic:

FROM OUR IDEA LIBRARY

*Choose from our extensive idea library, where **hundreds of images** have been specifically developed to work with our products.*

Visit **outwaterphotogallery.com/laminates** for our idea library

OR CUSTOM GRAPHICS

*One of the advantages of our services is the ability to **customize the images** within our idea library or you can create your own unique artwork.*

Shown: *Custom Graphic*

STEP 4:

Remember to specify left or right side power cord placement:

Part #	Size
LUM1648*	16" x 48"
LUM1696*	16" x 96"
LUM2448*	24" x 48"
LUM2496*	24" x 96"
LUM4848*	48" x 48"
LUM4896*	48" x 96"

Please Specify H x W For Your Graphic Direction

GRAPHIC WALL PANELS

Sheet Size:
4' x 8'

Thickness:
.045" (Fire Rated) , .060" & .120"

Material: FRP
(Fiberglass Reinforced Plastic Panels)

Our Graphic Wall Panels are suitable for use as wall coverings, wainscoting, elevator walls, bar fronts, signage and POP displays. Our Graphic Wall Panels are a translucent panel that pass sanitary codes and is easy to clean. It is suitable for wet environments such as commercial kitchens and baths. With its second surface imaging, and the addition of a white backer, this substrate resists scratching and is highly durable, making it the perfect wall protection in high traffic areas.

Our Stone Veneer Sheets are made from natural stones. This means each sheet will vary as every piece consists of a thin layer of real stone and no two stones are exactly the same. The flexible Stone Veneer Sheets are backed by a polymer composite, which gives the sheet their flexibility and strength while keeping the weight to a minimum.

Can be applied over concrete, ceramic, wood, metal, plywood, fiberglass, backer board, tile, dry wall, painted surfaces, MDF, Masonite®, door skin, cabinetry and many other substrates.

Flexible | Energy saving | Impact resistant | Clean work | Water resistant | Quick installation | Light weight | Easy to carry | Resists extreme climate conditions

Indian Autumn with Backlight
Ocean Green with Backlight

For backlighting solid surfaces, use our flexible & cuttable LED

Auragami™

See pages R-109~111

For additional Backlighting, see pages R-107~120

Wood over wood laminate is composed of two wood veneer faces permanently bonded with the grain of the face running perpendicular to the grain of the back. The result is a dimensionally stable product which minimizes the wood veneer's tendency to expand and contract across the grain.

TYPES OF VENEER CUTS

The manner in which veneers are cut is an important factor in producing the various visual effects obtained. Two logs of the same species, but with their veneers cut differently, will have entirely different visual characteristics even though their colors are similar.

ROTARY CUT KNIFE

FLAT CUT KNIFE

QUARTER CUT KNIFE

RIFT CUT KNIFE

4' x 8' Sheets

Nature's Best Exotic Species...

Mother nature loves our Natural Wood Veneers. These reconstituted veneers are cut exclusively from rapidly renewable trees, promoting sustainability and forest preservation.

In addition to being green, Natural Wood Veneers provides enhanced consistency in grain and color...great for large projects requiring sequences of 100 sheets or more.

Natural Wood Veneer is backed with 10 mil paper to create a strong curvable sheet.

• ASTM E-84 Class "A" fire-rated   • Comes standard on 10 mil paper

U S E S

Millwork	Cabinetry
Interior Design	Elevators & Staircases
Furniture & Fixtures	Woodworking

Shown: Zebrawood

Benefits...

• **No bleed through:** Helps prevent moisture bleed through, protecting both your adhesion to the substrate and your stain + finish coats.

• **No movement:** "Stress-relieved" through a tenderizing process that breaks up the wood fiber, crating a relaxed sheet that will lay flat.

• **No sequence breaks:** Remarkable consistent...sheet #1 will look like sheet #600.

• **No cracking:** Extremely curvable, allowing for use in tight radius applications.

• **No bubbles:** When applied properly, our veneers are constructed to minimize substrate imperfections from showing through.

• **No waiting:** Arrives sanded, trimmed, inspected and ready to use.

• **No waste:** 100% usable, minimizing product cost, freight and storage.

FIRST Laminate Flat ~ Then Shape

Step 1
Lay Kerfkore® on a flat surface. Remove all dust and debris for a clean surface.

Step 2
Apply glue to black latex paper side. Adhere pre-cut laminate or veneer.

Step 3
Apply pressure to laminate to adhere.

Step 4
Trim edges, if necessary.

Final Step
Finished product - now you can shape for desired application.

KERFKORE

SHAPE FIRST ~ THEN LAMINATE

FOAMKORE

• A new lightweight alternative to traditional panels

• Foamkore is appropriate for use in areas where weight is a concern

• Up to 80% reduced weight when compared to MDF, plywood or particle board

• Foamkore is constructed with a polystyrene foam core with higher density face panels to provide a strong lightweight panel with structural integrity

• The use of glue, staples, nails, screws and other similar fasteners will allow the panel to be physically and structurally attached to other materials

ACOUSTI-PANEL
SLATTED WOOD WALL PANELS

Our wood slat panels are beautifully crafted wall and ceiling panels boasting the highest quality finishes in the industry. Our panels use an "extreme matte lacquer" finishing process which needs no further oils, waxes, stains or lacquers to prevent fading, splintering or cracking.

Ready to quickly and easily transform your space with contemporary flair and mid-century styling straight out of the box.

Available in a choice of 3 beautiful wood tone oak veneers, lamella slats are mounted to acoustic black felt, improving sound quality while adding texture to a single wall or entire room.

- **Modern, elegant wood veneer slats on 3/8" black acoustic felt offer sound dampening qualities for a clean, contemporary look.**

- **Stocked in 3 unique, eye-catching finishes.**

- **Fully sustainable**

- **Extreme matte lacquer finish prevents fading, cracking & chipping. No additional finishing required.**

- **Easy installation. Ready to transform your interior straight out of the box. (Instructions Included)**

- **Use on walls and ceilings vertically or horizontally.**

- **Seamless joining.**

- **Free continental USA shipping.**

Each box contains 2 panels measuring 94.5"L x 12.6"W x.82"D each.

NATURAL ELEMENTS

NATURAL ELEMENTS
FLEXIBLE WOOD TAMBOUR PANELS

New

Available in a cost effective line of Internationally produced North American Hardwoods along with our line of panels proudly made in the USA.

- *Flexible fluted wall panels allow for graceful curves or flat surface applications.*

- *This decorative surface can be used for walls, ceilings, wainscoting, pole wraps, bar fronts, furniture, drawer fronts, and tambour doors.*

- *The natural tone, grain, and texture of wood tambour provides a sense of warmth and contemporary style.*

- *Each wood slat is hand-selected to ensure you receive the best quality wall panel.*

- *Ready to stain, paint or clear coat.*

- *Much easier to work with than most wood wall cladding. To install, simply apply construction adhesive to the back of the tambour sheet and mount it onto your surface.*

- *Can be trimmed with fine tooth saw or cut length-wise with utility knife.*

- *Slats run in the longer direction.*

ANAGLYPTA® WALL COVERINGS & BORDERS

Add texture and interest to bring an exciting, unique look into any room with our new Anaglypta® Wall Coverings, Borders and Dados. These highly embossed, extraordinarily durable coverings hide your old, uneven or otherwise unsightly walls and ceilings with a supremely versatile surface. Virtually indestructible, our new wall coverings and borders respond magnificently to a wide variety of different decorative techniques including painting, marbleizing, scumbling and glazing. The truly classical designs and physical endurance is matched only by its aesthetic longevity and ease of installation.

ANAGLYPTA® SUPADURABLE
20-1/2" High x 33 Ft. Long Rolls

Anaglypta® Supadurable has a deep, pronounced emboss with great resilience to heavy wear. The toughness of the relief makes it suitable for high traffic areas, such as hallways and stairways, public places or wherever good looks and low maintenance are a high priority. The inherent qualities are due to the combination of virgin pulp, from managed forests, mixed with cotton fibers making it a natural product. All are suitable for walls and many of designs can be used on ceilings in keeping with the Victorian Style.

ANAGLYPTA® LUXURY VINYL WALL COVERINGS
20-1/2 In. High x 33 Ft. Long Rolls

Combines a warm, tough and luxurious appearance. Anaglypta® Luxury Vinyl is washable when painted with latex semigloss which also highlights the relief in the design. Its modern manufacturing method also stops the emboss from becoming permanently crushed during hanging or use. Being flat backed, it is easy to hang on ceilings & walls.

ANAGLYPTA® ORIGINAL
20-1/2" High x 33 Ft. Long Rolls

Anaglypta® Original remains unsurpassed, still made in the traditional manner by bonding two pieces of paper together. Only now, it is made from recycled paper and a quantity of virgin pulp, from managed forests, to give it strength. Easy to handle, hard-wearing and versatile, Anaglypta Original is suitable for walls and ceilings. There are many different patterns and styles to choose from; some dating back to the early twentieth century.

NEW ENGLAND CLASSIC® RAISED PANEL WAINSCOTING
CLASSIC TRADITIONAL™ RAISED PANEL
Available Primed White or Unfinished Oak Veneer

New England Classic's® Classic Traditional™ raised panel wainscoting brings back the warmth and beauty of fine wood interiors. The system is designed using components that complement each other to provide high quality, fully coordinated interior solutions. The panels are 9", 12", 15" 18" and 23" wide by 23" high. The stiles are 3" wide by 23" high. Combined with different railing systems you can achieve overall heights of 32" and 36". System consists of an engineered wood core and hardwoods and is ready to finish. Plate shelves, backbands and casings are available to accent and neatly finish your job. In addition to the above panels, stiles and rail kits, 6" x 23" panels and 10" x 23" end stiles are also available for meeting the in-between sizes. All mouldings are sold in 8 foot lengths only and the 4" and 8" rail kits can not be broken up for individual component sale.

BENEFITS INCLUDE:
- The look and feel of custom millwork at an affordable price.
- Installs quickly and easily with minimum job site customizing.
- Complete set of installation instructions included with every order.
- Nailing grooves assure proper nailing locations and conceal most nail holes.
- Design minimizes the need for complex coping of joints.
- Veneered panel construction minimizes seasonal shrinkage, splitting and twisting.
- Ready to paint or stain.
- We can help design your layout and estimate your material needs. All you need to do is fill out our design layout sheet and we can provide a detailed drawing and material list.

WALLSCAPES

Actual Cast Pieces From Old Barn Wood
Over 100 Different Moulds
No Two Planks are Alike!
Just As No Two Trees Look Alike

MADE IN THE USA

Introducing Our Latest Addition:
Plank It Wallscapes *(Urethane Composite)*

For use in interior settings, both residential and commercial *(Class "A" Fire Rating)*

The Plank It Advantage

They may look like genuine barn wood, but our Plank It Wallscapes have advantages over the real thing.

• **Save Time & Labor**
• **No Planing, No Sanding & No Finishing**
• **100% Useable / No Waste**
• **Plank It Wallscapes are pre-finished & ready to use**
• **Lightweight: Easy to handle & install**
• **Won't Warp, crack/check, rot or harbor insects.**

• **Easy to clean, non-toxic planks are environmentally friendly.**
• **Replicated to exacting details from actual weathered wood planks.**
• **No arsenic, lead, odor or pesticide residue.**
• **Class "A" Fire Rated**

Breathtakingly Beautiful

The authentic look & texture of reclaimed weathered wood boards creates the depth of character and sense of warmth that only wood can bring. Choose from an array of six naturally sun-weathered finishes. With close attention to detail, originality and character, these planks look every bit as unique as real wood, with a lot less hassle. What better way to bring the natural beauty and look of wood to any wall or surface of your home or business.

New!

Smaller Planks

• **3-7/8" wide**
• **10 sq. ft. per box**
• **Please inquire**

MADE IN THE USA
Variation
No two planks will look alike!

Our complex color variation, along with our mixed widths contributes to a beautiful, large scale design. The deep graining in each board was cast from reclaimed old barn wood lumber.

White Washed

Canyon Red

Woodlands Cabin

Cottage Blue

Storm Grey

Seaside Grey

How To Measure

Measure the Height x Length of the area you wish to cover.

Example:
H: 4 Ft. x L: 9 Ft. = Total of 36 Square Feet

There are 36 square feet in a box you will need ONE Box
Specifications

- **Size: 6" & 8" W x 46-1/2" L x 3/8" Thick**
- **Material: Urethane Composite / Acrylic Finish**
- **UV Stabilized For Interior Use**

Easy To Install

Installs at a fraction of the time, cost & labor of an actual wood installation, yet has all the benefits & appeal that only wood can bring to a space. Attaches to sheet rock, concrete, wood or brick with standard woodworking tools. Simply mark a level line for your first row. Begin with several drops of construction adhesive & pin into place with small nails or staples. Continue to the end of the row & trim as needed. Start the next row with a staggered plank to avoid seams aligning. Trim as needed around outlets and switches. This process will continue until you have completed the project. We recommend F26, PL Premium or equivalent adhesive for best results.

Why Choose Wood Wallscapes?

Create a stunning accent wall with modern rustic charm surrounding yourself with the rich warmth of natural wood. Our wood wallscapes can quickly & easily transform the look and feel of a room. Harvested from sustainable pine forests, our panels have a clean, minimalist appeal with natural wood texture & characteristics. Available in 9 inviting finishes, choose one finish or mix and match for added depth & charm. Three strong peel and stick adhesive strips eliminate the need for messy glues or nails, making installation quick, simple and DIY friendly. Bring the beauty of nature to your interior spaces with the natural warmth, texture and comfort that only wood creates.
