MAXX LED Light (Indoor/Outdoor): No Power Supply Needed!

Can Run Up To 164 Ft. On One Power Cord
Available Lengths: 33', 82' & 164'

Material: Flexible PVC

- Ideal for applications in which longer lengths are desired
- Includes a factory sealed 2' power cord & end cap
- Consistent binning/color
- Field cuttable every 20" nominal and connectable
- Dimmable
- Limited 2 Year Warranty

IP67 MAXX LED Light
Suitable For Wet Locations

Brite Light Flex Color Changing (RGB: Indoor/Outdoor): No Power Supply / Amplifiers Needed!

Can Run Up To 164 Ft. On One Power Cord
Available Lengths: 33', 82' & 164'

Material: Flexible PVC

Recognized as the most versatile and brightest RGB LED Ribbon Lighting on the market today, Outwater has expanded its offering with the introduction of the new super bright 120V RGB LED variant.

With no fixtures to hide, Outwater's 120V RGB LED Ribbon Flex Lighting can be easily mounted in all of those "hard to light" areas or virtually anyplace that could not be previously lit, and is perfectly suited for illuminating any type of indoor or outdoor application.

- Ideal for applications in which longer lengths are desired
- Consistent binning/color
- Includes factory installed end cap
- Power and controller included

IP65 Brite Lite Flex: Color Changing RGB
Provides Protection From Dust & Splashing Water, Not Submersible

7 Colors From One Lighting Source

Standard Color Changing RGB (Up To 190 Lumens Per Foot / 5050 Chip 60 Pcs/Meter)

Non-Neon Lighting

Replaces Glass Neon Tubes

Material: PVC

IP65 Non-Neon Lighting

Provides Protection From Dust & Splashing Water, Not Submersible

PRODUCT FEATURES:

For Interior & Exterior!

- More economical option for signage and interior design.

Energy Efficient!

- This unique LED product will save you up to 70% or more on your energy costs!
- Very low consumption
- Low heat - cool to the touch!

When Off This Light Has A Milky White Cover

Long Life Rating and Durability!

- The LED's are rated to last up to 50,000 hours.
- Virtually unbreakable
- Unique, flexible, and soft PVC jacket, is durable and impervious to the elements.
- 100% water resistant when properly sealed.

Commercial Quality & Superior Brightness!

- NO HOT SPOTS!

This product provides a neon and fiber optic light brightness.

Flexible and Easy to Use!

- Standard 120V - no drivers or transformers are necessary, just plug into the wall!
- Field cuttable- 120V every 19.68" & 24V every 4"
- Field bendable. This product can be bent to a minimum radius of 2" - 3-1/8".
- Various connector options are available for diverse applications.

Field Cuttable
See charts on next page for cut lengths.

Part #	Description	Finish	Range of Dimming	Size
LED-INLINE-DIM	Inline Rotary	Black	0-100%	2-5/8"L x 1-3/8"W x 1"H

For Product Details & More Dimmer Options, See Pages R-138~140 & R-147~149
Other Options: Rotary | Touch Dimmer | Radio Frequency

Multi Output Cables

2-Way Sweep: DC 5.5

4-Way Spider: DC 5.5

Part #	Description	Finish	Arms Size	# of Arms	Overall Length	Max # of Power Linking Cables
LED-2WAY-BK	2-Way Sweep	Black	3"	2	7"	2
LED-SPIDER-CBL	4-Way Spider	Black	4-1/2"	3	96"	4

For Cut Pieces of Ribbon (Power Linking Cable Required For Each Outlet) & DC 5.5 Connection

For More Extension Cable Options, See Page R-143

Connectors

Connects ribbon at a 90° angle.

Part #	Works With	Description	# of Pins
For Cut Pieces of Ribbon			
RIB8-100U-2W	RGB Ribbon	2-Way L	2
RIB8-100U-3W	RGB Ribbon	3-Way T	2
RIB8-100U-4W	RGB Ribbon	4-Way Cross	2

End To End For 100% Usable Connections

Part #	Works With	Description	# of Pins
RIB8-100U-EE	RGB Ribbon	Usable connection directly	2
RIB8-100U-EE-120	RGB Ribbon	connects 2 cut pieces	2

Connecting Cables

100% Usable

Hardwire to 100% Usable

Part #	Works With	Description	Color	Length	# of Pins
Pin Connection (Pins Included)					
RIB8-100U-C1	RGB Ribbon	Lights areas without multiple power supplies	Black	24"	2
RIB8-100U-C1-120	RGB Ribbon	multiple power supplies	Black	24"	2
RIB8-100U-C2	RGB Ribbon	Lights areas without multiple power supplies	Black	36"	2
RIB8-100U-C2-120	RGB Ribbon	multiple power supplies	Black	36"	2
For 2 Cut Pieces of Ribbon					
RIB8-100U-ST	RGB Ribbon	100% Hardwire	Multi	79"	2

For More Extension Cable Options, See Pages R-141~142

Power Linking Cable

Required for multi output cables or cut pieces of ribbon.

100% Usable

Part #	Works With	Description	Overall Length	Finish	# of Pins
For Cut Pieces of Ribbon					
RIB8-100U-PL	RGB Ribbon	Power Link Cable with 100% Usable Connection	18"	Black	2

For Hardwire Power Linking Cables, See Page R-137

Mounting Clips

For IP20

For IP65

Part #	Works With	Description	Material	Size
LED-8MM-MC-IP20	RGB Ribbon	For IP20 Ribbon 1 mounting clip & screw	Plastic	5/16"
LED-8MM-MC-IP65	RGB Ribbon	For IP65 Ribbon 1 mounting clip & screw	Plastic	5/16"

For More Mounting Clip Options, See Page R-145

Universal LED Ribbon Mounting Channels

Aluminum channels that work with our ribbons

To See A Full Line Of Our Mounting Channels, See Pages R-53~63

LG24 Long Run Ribbon Flex Series

Available Length: 98.4'

Material: Flexible Silicone Cover with Adhesive

- Commercial Grade
- Field Trimmable
- Consumes Only a Few Watts Per Field Cuttable Strip
- 30,000 Hour Average Bulb Life
- Dimmable
- IP20 & IP65 Options
- No UV Radiation- Safe For Artwork
- Limited 2 Year Warranty

Shown IP65

7" BARE WIRE ENDS CONNECT DIRECTLY TO CONTROLLER

2 Options Available

IP65 Premium Ribbon

Provides Protection From Dust & Splashing Water, Not Submersible

IP20 Premium Ribbon

Provides Low Protection of Dust & Water

Single Ribbon Flex (Up To 76 Lumens Per Foot)

Shown IP65

Part #	Length	# Of LED Chips	Total Wattage	Max # Can Connect
IP65 (Cool White *CW, Warm White *WW, Pure White *PW)				
LG24-N28120-30M-*	98.4'	3600	120	98.4'
IP20 (Cool White *CW, Warm White *WW, Pure White *PW)				
LG24-I28120-30M-*	98.4'	3600	120	98.4'

Lighting Specifications

Color Temperature	CW: 6000K-6500K PW: 4000K-4500K WW: 2800K-3000K

Universal LED Ribbon Mounting Channels

Aluminum channels that work with our ribbons

To See A Full Line Of Our Mounting Channels, See Pages R-53~63

COB24 CCT Ribbon Flex Series

Versatile & field trimmable LED ribbon can be adapted to meet many design needs. Can program color temperature ranges between 2800K-6000K.

Nominal Lengths: 16.4'

Material: Flexible White PCB with Adhesive

- This NEW color changing temperature (CCT) provides greater energy efficiency and high lumens.
- 3M Adhesive Back
- Limited 3 Year Warranty

IP20 Cut Per LED Ribbon
Provides Low Protection of Dust & Water

7" BARE WIRE ENDS CONNECT DIRECTLY TO CONTROLLER

COB2410-I640-16CCT (Up To 363 Lumens Per Foot)

Part #	Length	# Of LED Chips	Total Wattage	Max # Can Connect
COB2410-I640-16CCT	16.4'	2400	80	16.4'

Lighting Specifications

Color Temperature	2800K-6500K
Beam Spread	180°
Lumens	363 per ft.
Color Rendering Index	90
Rated Average Life	30,000 hrs.
Constant	Voltage
Chip Size	COB

Required

Power Supplies

Part #	Type	Amps	Volts	Watts	Dimensions
LED-24V-3A	Desktop	3A	24V	72W	4.68"L x 2.34"W x 1.48"H
LED-24V-6A	Desktop	6A	24V	144W	6.77"L x 2.83"W x 1.57"H

For Product Details & More Power Options, See Pages R-133~137
Other Options: Plug In | Hardwire | Hardwire Dimmable | Rechargeable Battery

24V

Accessories for COB24 CCT Ribbon Flex Series

Required

Option 1: RF Controller With Remote For CCT

LED-ADJTEM-CR2

Output Ports
Dedicated CW/WW

Input: DC5.5
Power Supply

Features:

- 3A / 24V / 72W
- Input Wire: Female DC 5.5 / Hardwire
- Output Wire: Hardwire
- Controller Size: 4-1/2"L x 2-3/16"W x 3/4"H
- Receiver Size: 3-5/8"L x 1-3/4"W x 7/8"H
- Color: White

Controller Functions:

- Mounting: Surface
- Remote Control Function: RF
- Gradient Change: 11 Grades
- Brightness Adjusting: 20 Grades
- Sound: No

Option 2: RF CCT Controller With Desktop or Wall Option

Receiver

Included With Every Dimmer

7" L x 1.75" W x .75" H

Female DC 5.5 Input Cord: 18"

- Each dimmer is paired to the included receiver. However, multiple dimmers can be paired to one receiver. (Instructions included in package)
- Range of Dimming: 10%-100%
- Push Button On/Off Function
- All dimmers work up to 50' away from receiver
- All dimmer controllers run on battery
- Limited 3 Year Warranty
- Radio frequency goes through walls

Wall Dimmer

Fits Over A Standard Receptacle Box
3.5" L x 1.37" W x .75" H
RF-CCT-CTRL-WT

Desk Top Dimmer

4" L x 1.5" W x 1.8" H
RF-CCT-CTRL-DT

For More On Radio Frequency Dimmers, See Pages R-147-149

Optional

Connectors

For Use With Bare Wire Connections

2-Way Connector

Part #	Descriptions	Function	Length
LED-5555-PM	Push Terminal Connector	DC 5.5 male to push terminal connector	1.5"

Replacement parts- included with each ribbon & accessory

Part #	Description	# of Pins
LED-4P-CON	Male to male connect end-to-end	4

Universal LED Ribbon Mounting Channels

Aluminum channels that work with our ribbons

To See A Full Line Of Our Mounting Channels, See Pages R-53~63

Premium RGB Ribbon Flex

Nominal Lengths: 8.25' & 16.4'

Material: Flexible Silicon Cover with Adhesive

- Commercial Grade
- Field Trimmable
- Nominal 8.25' & 16.4' rolls
- Consumes Only a Few Watts Per Field Cuttable Strip
- 30,000 Hour Average Bulb Life
- 3M Adhesive Back
- No UV Radiation- Safe For Artwork
- Limited 2 Year Warranty

IP65 Premium 24V RGB Ribbon
Provides Protection From Dust & Splashing Water, Not Submersible

Single Ribbon Flex Strips (Up To 48 Lumens Per Foot)

Part #	Length	# Of LED Chips	Total Wattage	Max # Can Connect
RIB24-N5060-8RGB	8.25'	120	29	16.4'

Lighting Specifications

Beam Spread	140°
Lumens	Red: 22 per ft. Green: 48 per ft. Blue: 7 per ft.
Rated Average Life	30,000 hrs.
Constant	Current
Chip Size	SMD5050

Single Ribbon Flex Coils (Up To 48 Lumens Per Foot)

Part #	Length	# Of LED Chips	Total Wattage	Max # Can Connect
RIB24-N5060-16RGB	16.4'	300	58	16.4'

Lighting Specifications

Beam Spread	140°
Lumens	Red: 22 per ft. Green: 48 per ft. Blue: 7 per ft.
Rated Average Life	30,000 hrs.
Constant	Current
Chip Size	SMD5050

Accessories for Premium RGB Ribbon Flex

Required

Power Supplies

Part #	Type	Amps	Volts	Watts	Dimensions
LED-24V-3A	Desktop	3A	24V	72W	4.68"L x 2.34"W x 1.48"H
LED-24V-4A	Desktop	4A	24V	96W	6.77"L x 2.83"W x 1.57"H
LED-24V-6A	Desktop	6A	24V	144W	6.77"L x 2.83"W x 1.57"H

For Product Details & More Power Options, See Pages R-133~137

Other Options: Plug In | Hardwire | Hardwire Dimmable | Rechargeable Battery

Controllers

Part #	Description	Input Wire	Output Wire	Dimensions
LED-RGB36-CRP	Deluxe RGB controller with up to 25 color changing functions	Female DC 5.5: 18"	4 Pin Connection: 18"	4-3/8"L x 2-1/8"W x 1"H
LED-RGB36-INLINE	Super small RGB controller with up to 20 color changing functions	Female DC 5.5: 3-1/2"	4 Pin Connection	1-1/2"L x 1/2"W x 1/8"H

For Product Details & More Controller Options, See Pages R-146~149

Other Options: Radio Frequency | Sound Activated

Optional

Connectors

Connects ribbon at a 90° angle.

Part #	Works With	Description	# of Pins
Pin Connection (Pins Included)			
LED-RIBBON-2W-C	RGB Ribbon	2-Way L	4
LED-RIBBON-3W-C	RGB Ribbon	3-Way T	4
LED-RIBBON-4W-C	RGB Ribbon	4-Way Cross	4
For Cut Pieces of Ribbon			
LED-RIBBON-2W-EE-C	RGB Ribbon	2-Way L	4
LED-RIBBON-3W-EE-C	RGB Ribbon	3-Way T	4
LED-RIBBON-4W-EE-C	RGB Ribbon	4-Way Cross	4

End-To-End For

100% Usable Connections

Part #	Works With	Description	# of Pins
LED-RIBBON-100U-EE	RGB Ribbon	Usable connection directly connects 2 cut pieces	4

Accessories for Premium RGB Ribbon Flex

Optional

Connecting Cables

Part #	Works With	Description	Finish	Length
Pin Connection (Pins Included)				
LED-RIBBON-RGB-CON	RGB Ribbon	Allows the designer to get around unlit areas without multiple power supplies	Black	18"
LED-RIBBON-RGB-C24	RGB Ribbon		Black	24"
LED-RIBBON-RGB-C36	RGB Ribbon		Black	36"
For Cut Pieces of Ribbon				
LED-RIBBON-100U-R1	RGB Ribbon	Directly connect 2 cut pieces of ribbon while providing ability to get around unlit areas	Multi	24"
LED-RIBBON-100U-R2	RGB Ribbon		Multi	36"
Pin Connection (Pin Included) To Cut Pieces of Ribbon				
LED-RIBBON-100U-4P	RGB Ribbon	Directly connect pin to cut piece of ribbon to get around unlit areas	Multi	18"

For More Extension Cable Options, See Page R-142

Amplifiers

Part #	Description	Input Wire	Output Wire	Dimensions
LED-RIBBON-RGB-AMP	Is to extend the signal of an RGB controller when the power supply is exceeded.	4 Pin Connection: 18"	4 Pin Connection: 18"	3-1/2"L x 2-1/2"W x 7/8"H
LED-RGBMIN-AMP	(Must purchase another power supply when using this product)	4 Pin Connection	4 Pin Connection	1-5/8"L x 1/2"W x 1/8"H

Mounting Clips

Part #	Works With	Description	Length
LED-5050-MC	RGB Ribbon	1 mounting clips & 2 screws	10mm

For More Mounting Clip Options, See Page R-145

End-To-End For Pin Connections

Replacement parts- included with each ribbon & accessory

Part #	Works With	Description	# of Pins
LED-4P-CON	RGB Ribbon	Male to male connect end-to-end	4

Universal LED Ribbon Mounting Channels

Aluminum channels that work with our ribbons

To See A Full Line Of Our Mounting Channels, See Pages R-53~63

12MM 4 In 1 Chip Technology: Including Dedicated Warm or Cool White Option

Available Lengths: 16.4'

Material: Rolled Copper PCB with White Coating

- Field Cuttable
- Flexible
- Limited 2 Year Warranty

2 Options Available

IP65 12MM 4 in 1 Ribbon

Provides Protection From Dust & Splashing Water, Not Submersible

IP20 12MM 4 in 1 Ribbon

Provides Low Protection of Dust & Water

7" BARE WIRE ENDS CONNECT DIRECTLY TO CONTROLLER

12MM 4 In 1 Ribbon Flex: Including Dedicated Warm or Cool White Options

Hardwire To 100% Usable			
LED-RGBW12-100U-ST	Hardwire power supply or dimmer to cut pieces	Multi	79"
Hardwire To Pin			
LED-RGBW12-MCC	Hardwire power supply or dimmer to cut pieces	Black	6"

Mounting Clips

Part #	Description	Length
LED-12MM-MC-IP20	1 mounting clips & 2 screws	12mm

End-To-End For Pin Connections

Replacement parts- included with each ribbon & accessory

Part #	Description	# of Pins
LED-5P-CON	Male to male connect end-to-end	5

Universal LED Ribbon Mounting Channels

Aluminum channels that work with our ribbons

To See A Full Line Of Our Mounting Channels, See Pages R-53~63

5 In 1 Warm White, Cool White & RGB Ribbon

Now you can mix colors and/or create white ranging from warm to cool

Nominal Lengths: 16.4'

Material: Flexible White PCB with Adhesive

- 5 colors on the same chip
- Over 1 trillion color combinations
- Seamless blending of RGB with Tunable White (2400K to 6500K)
- Field Trimmable
- Flexible
- 3M Adhesive Back
- Limited 3 Year Warranty

7" BARE WIRE ENDS CONNECT DIRECTLY TO CONTROLLER

5 In 1 Warm White, Cool White & RGB Ribbon

Part #	Length	# Of LED Chips	Total Wattage	Max # Can Connect
FVR24-IRGWH5060-16	16.4'	300	120	16.4'

Lighting Specifications

Color Temperature	2400K + RGB + 6500K
Beam Spread	120°
Color Rendering Index	80
Rated Average Life	35,000 hrs.
Constant	Voltage
Chip Size	5050

Required

Power Supplies

Part #	Type	Amps	Volts	Watts	Dimensions
LED-24V-6A	Desktop	6A	24V	144W	6.77"L x 2.83"W x 1.57"H

Universal LED Ribbon Mounting Channels

Aluminum channels that work with our ribbons

To See A Full Line Of Our Mounting Channels, See Pages R-53~63

DP24 SERIES

THIS NEW LED 2835 CHIP, PROVIDES GREATER ENERGY EFFICIENCY, HIGH LUMENS & BUDGET FRIENDLY PRICING.

DP246 28140 (Up To 406 Lumens Per Foot)

DP248 2860 (Up To 209 Lumens Per Foot)

DP2410 2860 (Up To 339 Lumens Per Foot)

- This comprehensive array of LED 2835 ribbons includes width ranging from 1/4" to 9/16"
- Special Feature: Ribbon has 2 female ends (DC 5.5) so it can be cut to size and then the remaining piece can be used for another project
- Available Lengths: 8.25' & 16.4' (Nominal)
- Available In: IP65 & IP20
- Most design options can be accommodated with use of our FPC* connector series.
- Limited 2 Year Warranty

DP2410 28120 (Up To 408 Lumens Per Foot)

DP2410 28182 (Up To 555 Lumens Per Foot)

DP2415 28196 (Up To 740 Lumens Per Foot)

DP24 Ribbon Flex Series

Available Lengths: 8.25' & 16.4' (Nominal)
Material: Flexible White PCB with Adhesive

2 Options Available

IP65 24V DP24 Ribbon

Provides Protection From Dust & Splashing Water, Not Submersible

IP20 24V DP24 Ribbon

Provides Low Protection of Dust & Water

Ultra Thin DP246 28140 (Up To 406 Lumens Per Foot)

Part #	Length	# Of LED Chips	Total Wattage	Max # Can Connect
<i>IP20 (Cool White *CW, Warm White *WW & Pure White *PW)</i>				
DP246-I28140-8*	8.25'	350	26	8.25'

Connecting Cables

100% Usable

Part #	Description	Finish	Length
RIB10-100U-C1-120	Directly connect 2 cut pieces of ribbon while providing ability to get around unlit areas	White	24"
RIB10-100U-C2-120		White	36"

For More Extension Cable Options, See Page R-141

End-To-End For 100% Usable Connections

Part #	Description
RIB10-100U-EE-120	Usable connection directly connects 2 cut pieces

Universal LED Ribbon Mounting Channels

Aluminum channels that work with our ribbons
 To See A Full Line Of Our Mounting Channels, See Pages R-53~63

High Density Ribbon

LED's are so close together that when installed inside our Vision Task Extrusions there is virtually NO HOT SPOTS! (See Pages R-53~63)

Nominal Lengths: 8.25' & 16.4'
Material: Flexible White PCB with Adhesive

- This high density 2216, provides greater energy efficiency, high lumens & budget friendly pricing.
- This comprehensive array of LED 2216 ribbons has a width of 3/8", 127 chips per ft. & 7.3 watts per ft.
- Special Feature: Ribbon Has 2 female ends (DC 5.5) so it can be cut-to-size and then the remaining piece can be used for another project.
- 3M Adhesive Back
- Limited 3 Year Warranty

7" Cable With DC5.5

7" Cable With DC5.5

HDL2410-I22420 (Up To 545 Lumens Per Foot)

Part #	Length	# Of LED Chips	Total Wattage	Max # Can Connect

Color Changing Temperature (CCT) Cut Per LED Ribbon

Versatile & field trimmable LED ribbon can be adapted to meet many design needs. Can program color temperature ranges between 3000K-6000K. Cut increment is less than 1"!

Nominal Lengths: 16.4'

Material: Flexible White PCB with Adhesive

- Now you can create any desired length!
Cut increments is less than 1"!
- This NEW color changing temperature (CCT) LED 2835, provides greater energy efficiency, high lumens & budget friendly pricing.
- This comprehensive array of LED 2835 ribbons has a width of 3/8", 36 chips per ft. & 8.7 watts per ft.
- 3M Adhesive Back
- Limited 3 Year Warranty

IP20 CCT Cut Per LED Ribbon
Provides Low Protection of Dust & Water

Other Options: Plug In | Hardwire | Hardwire Dimmable | Rechargeable Battery

Option 1: RF Controller With Remote For CCT

LED-ADJTEM-CR2

Features:

- 3A / 24V / 72W
- Input Wire: Female DC 5.5 / Hardwire
- Output Wire: Hardwire
- Controller Size: 4-1/2"L x 2-3/16"W x 3/4"H
- Receiver Size: 3-5/8"L x 1-3/4"W x 7/8"H
- Color: White

Controller Functions:

- Mounting: Surface
- Remote Control Function: RF
- Gradient Change: 11 Grades
- Brightness Adjusting: 20 Grades
- Sound: No

Option 2: RF CCT Controller With Desktop or Wall Option

Receiver

Included With Every Dimmer
 7" L x 1.75"W x .75" H
 Female DC 5.5 Input Cord: 18"

- Each dimmer is paired to the included receiver. However, multiple dimmers can be paired to one receiver. *(Instructions included in package)*
- Range of Dimming: 10%-100%
- Push Button On/Off Function
- All dimmers work up to 50' away from receiver
- All dimmer controllers run on battery
- Limited 3 Year Warranty
- Radio frequency goes through walls

Wall Dimmer

Fits Over A Standard Receptacle Box
 3.5" L x 1.37" W x .75" H
RF-CCT-CTRL-WT

Desk Top Dimmer

4" L x 1.5" W x 1.8" H
RF-CCT-CTRL-DT

For More On Radio Frequency Dimmers, See Pages R-147~149

Universal LED Ribbon Mounting Channels

Aluminum channels that work with our ribbons
To See A Full Line Of Our Mounting Channels, See Pages R-53~63

ALUMINUM LED CHANNEL DRYWALL PROFILES

- *Material: Silver anodized aluminum*
- *Ideal for illuminating bathrooms, kitchens and similar areas.*
- *Mounts on tiles, ceramic or stoneware surfaces.*
- *Can be mounted between two tiles or used as a corner/wall ending.*
- *Suitable for LED strips with a maximum width of 12.5mm.*
- *Works with our COB24* LED strips, for a more uniform illumination.*
- *2-year guarantee on profiles and covers.*

Perforated L-shaped trim makes it is easy to fit on to concrete, thus achieving a perfect adhesion to wall.

L-Task Aluminum LED Channel Drywall Profile Series: Aluminum Channel with Frosted Lens

Lengths: Nominal 3 Ft. (1 meter) • Material: Satin Anodized Aluminum Finish • Lens: Frosted

L-Task Lens For Aluminum LED Channel Drywall Profile: Lens Only

Note: Additional end caps available, please inquire

Lengths: Nominal 10 Ft. (3 meters) • Lens: Frosted

FLEXIBLE ALUMINUM LED CHANNEL PROFILE

Bend to almost any curvature an LED installation requires. Can be reshaped again or bent back to the original flat profile if needed.

Easily bend the channel to perfectly fit inside or outside turns with a radius as tight as 6"

- Works with any LED strip 12mm or less.
- Ideal for both straight runs and curved surfaces.
- Great for uneven surfaces, under cabinets and counters, around support beams and curved walls.
- Provides maximum protection against the elements.
- Quickly dissipates minimal heat created by the LEDs and extends the life of the light strips.
- Prevents rust and corrosion.
- Protects LED Light Strips from damage, breakage, moisture and unwanted handling of the lights.
- Suitable for rough indoor or outdoor use.

Easy Installation

L-TASK-34-6

Length: Nominal 6.6 Ft. (2 meters)
Material: Satin Anodized Aluminum Finish
Lens: Frosted

Outwater's Plastic Lens For LED Lighting: *Lens Only*

LENS CHARACTERISTICS				
Color	Transmission	Dispersion	Surface Texture	LED Diodes
Frosted	High	Low	Pebbled	Visible
Milk White	Medium	Medium	Smooth	Slightly Visible
Opaque White	Low	High	Smooth	Not Visible

Frosted Lens: Allows the most light transmission. This is recommended for task lighting.

Milk White Lens: Allows moderate light transmission. The effect softens the light and reduces glare. A good choice for the largest variety of lighting situations

Opaque White Lens: Allows the least light transmission. The effect softens the light, reduces glare and eliminates the "scalping" caused by the LED's in most cases

These characteristics are general descriptions. Customers must decide which color most suits their needs.

Introducing Outwater's Vision Series

"See The Glow"

Our Special Opaque White Lens will soften & virtually eliminate hot spots

Outwater's Vision Series enables designers to readily create colorful RGB wallscapes or high luminescence task lights.

LED Lens

LENS CHARACTERISTICS				
Color	Transmission	Dispersion	Surface Texture	LED Diodes
Opaque White	Low	High	Smooth	Not Visible

Opaque White Lens: Allows the least light transmission. The effect softens the light, reduces glare and eliminates the "scalloping" caused by the LED's in most cases

These characteristics are general descriptions.

Customers must decide which color most suits their needs.

- LED vision system allows for the look of a fixture
- Tremendous design opportunities for custom sizes
- Options available to work with all of our ribbons

Modular Vision Rail

Perfect For Task Lighting

- NO GLARE!.. NO HOT SPOTS!
- Clean Continuous Lighting
- Modular Connections Allows User To Create Seamless Design
- Low Profile, Under 1"
- Super Bright!
Approximately 330 Lumens Per Foot!
- Dimmable! When Dimmed Provides Soft & Ambient Light
- Limited 2 Year Warranty

With Our New
Modular Vision Rail,
You Can Put A
Light Anywhere
You Need

Continuous Runs

3-Way

4-Way

Modular Vision Rail

Available Lengths: 8", 1', & 2' Nominal

Material: Aluminum with Opaque White Polycarbonate Lens

LENS CHARACTERISTICS				
Color	Transmission	Dispersion	Surface Texture	LED Diodes
Opaque White	Low	High	Smooth	Not Visible

Opaque White Lens: Allows lower light transmission, without seeing the LED diodes. The effect softens the light, reduces glare and eliminates the "scalloping" caused by the LED's in most cases.

Guide Rail Power Track

Material: ABS Plastic with Metal Rods

- Trimmable in the field
- Simply add lamp fixtures & connectors in any position onto the track

Part #	Overall Length
MVR-RAIL9	8.6"
MVR-RAIL13	12.9"
MVR-RAIL25	24.8"
MVR-RAIL49	48.8"
MVR-RAIL73	72.4"

Modular Vision Light (Up To 680 Lumens Per Fixture)

Material: Aluminum with Opaque White Polycarbonate Lens

- Unique magnetic connection will "CLICK" onto the track for easy assembly

Lighting Specifications

Color Temperature	PW: 4000K WW: 3000K

MVR-CC24	Is to allow the designer to get around unlit areas without multiple power supplies	White	23.6"
MVR-CC40		White	39.3"

Omni Wand: *One System With Multiple Solutions*

The Problem:

This Display required 16 different custom sized light fixtures, which would have been very costly and time consuming to order with an extensive lead time.

The Solution:

Omni Wand made this project simple and cost effective utilizing just one system. Up to 8 ft. long, the Omni Wand fixture can be easily trimmed to any size required. With Omni Wand, now you are finally in control to create lights as per your specs... not the other way around.

Many Mounting & Connecting Options

LENS CHARACTERISTICS				
Color	Transmission	Dispersion	Surface Texture	LED Diodes
Frosted	High	Low	Pebbled	Visible

Frosted Lens: Allows the most light transmission. This is recommended for task lighting.

Omni Wand: Top Mount

Omni Wand: One System With Multiple Solutions

Material: Clear Anodized Aluminum Channel with Frosted Polycarbonate Lens

The LED Omni Wand System can also be used as Top Mounted LED Lighting. Utilizing high intensity 5630 SMD chips, the System radiates beautiful unimpeded illumination without shadows or scalloping, lending itself for use as a perfect wall washing light. The System's brackets are extremely durable and comprise all aluminum museum quality construction. The lighting can be mounted either horizontally or vertically and can be pivoted within its housing to direct the lighting where it is required.

KIT INCLUDES

A
18" Omni Wand Housing Extrusion

B
6" Cool White Rigid Ribbon Strip (5630 SMD Chip) 12V

C
6" Power Track

D
Bell/Modern Style Spots: Cool White (1) & Warm White (1)

E
Solderless Clips (2)

F
6" Warm White Rigid Ribbon Strip (5630 SMD Chip) 12V

G
Female End (1) & Male End (1)

H
Mounting Clip With Screws

Frosted Polycarbonate Lens

12V Power Supply

Look Of Fluorescent With Functionality
& Energy Savings Of LED

★ STARLINK

Even Illumination

No Hotspots

No Power Supply

Simply Plug & Play

Can Link Up To 75 pcs.
Off One Power Cord

Limited 3 Year Warranty

Sizes Available: 1', 2', 3' & 4'

Several Mounting Options

★ **Virtually Seamless Connection**
With Very Little Loss Of Light When Connected
Only .40" gap, while others can be up to 2"

★ **90° Angled Power Cord**
*Power Cord With Rocker Switch
& Right Angle Space Saving Connection*

LED Lens

LENS CHARACTERISTICS				
Color	Transmission	Dispersion	Surface Texture	LED Diodes
Opaque White	Low	High	Smooth	Not Visible

Opaque White Lens: Allows the least light transmission. The effect softens the light, reduces glare and eliminates the "scalloping" caused by the LED's in most cases

120V

Starlink T5 Light Fixture

Available Nominal Lengths: 1', 2', 3' & 4'

Material: Polycarbonate with Opaque White Polycarbonate Lens

Starlink T5 Lighting Fixture (Up To 1550 Lumens Per Fixture)

Includes: Fixture & Plastic Mounting Clips

DP Conx

Available Lengths: 12", 24", 36", 48" & 60"

Material: Aluminum Housing with Clear Polycarbonate Lens

- Used For: Cove Lighting, Cabinet Lighting & Shelf Lighting
- Uses smaller DC 3.5 connector
- Light Source: SMD2835 strip
- Low profile can be easily hidden
- Excellent heat sink
- Mounting clips & screw included
- Joinable by middle and right angle connector
- Easy Installation
- Limited 2 Year Warranty

IP20 DP Conx
Provides Low Protection of Dust & Water

Power Track System

Power Track

- Length: 71-1/8"
- Material: PVC
- Finish: Black (*BK) & White (*WH)
- Magnetic Track: Requires no hardware to install
- Trimmable
- Once installed, no professional needed when reconfiguring for seasonal products & new store plans
- Accommodates 12V or 24V lighting up to 10 amps
- Low profile & easily hidden

LED-PWT-6*

Posi-Lock Connection

- Overall Length: 26-1/4"
- Cable Length: 22-3/4"
- Finish: Black (*BK) & White (*WH)
- Locking link cable can be repositioned for easy shelf adjustment
- All cables have a posi-lock connection when connected to the track. It will not easily dislodge by merchandise
- Built in rare earth magnet on cables will allow you to easily hide wires

Power Linking Cable

Connects from power supply to LED-PWT

Power Track Lighting

Utopia Ultra Bright Puck Light- Only Pivot Option On The Market!

Does It All! Even Light Distribution Without Any Hot Spots!

Material: Aluminum with Opaque White Polycarbonate Lens

- Pivoting head allows light to be directed to desired locations
- Connectable
- Supplied with 18" connecting cable
- Connect up to 20 fixtures off one power supply

LENS CHARACTERISTICS				
Color	Transmission	Dispersion	Surface Texture	LED Diodes
Opaque White	Low	High	Smooth	Not Visible

Opaque White Lens: Allows the least light transmission. The effect softens the light, reduces glare and eliminates the "scalloping" caused by the LED's in most cases

Utopia Ultra Bright Puck Light (Up To 180 Lumens Per Fixture)

Outwater Introduces: The “Way Far” Better Light

LED Wafer Puck Light Series

Wafer Puck Light

- No Holes To Bore
- Surface Mount
- Connectable
- Lightweight
- Super Thin
- Easy To Install:
Available In Magnetic, Adhesive or Surface Mount

[See Page R-103](#)

Moveable Wafer Track System

- Add A Light
Anywhere Needed
- Adjustable
- Lightweight
- Super Thin 1/4"
- Easy To Install

[See Page R-104](#)

Wafer Puck Light

The "Way Far" Better Light Thinnest Surface Mounted Puck- Recessed Look Without The Work!

Material: PVC Body with Prismatic Clear Polycarbonate Lens

- Super thin & super bright
- Greater light output then a 20W halogen bulb
- Dimmable
- Supplied with 18" connecting cable

Designed For Multiple Surfaces

Connect Up To 25 Pucks Per Power Supply

Wafer Puck Light (Up To 250 Lumens Per Fixture)

IP20 Wafer Puck Light
Provides Low Protection of Dust & Water

DIY: Brite Light Sheet

An inexpensive way to create Light Guide Panels

Brite Light Sheet is an optical PVC film with dot matrix designed to disperse light evenly across your acrylic panel

- **The most affordable way to create DIY backlighting**
- Sold in nominal 4 ft. x 25 ft. rolls... Can be shipped via UPS
- **Easy to install...** The Brite Light Sheet adheres to any acrylic or glass surface
- **Zero gap clearance** allows for heavy loads
- Low resistance enables the Brite Light Sheet to be easily removed and repositioned as desired without damage to the Light Guide Sheet
- Ideal for one sided small signs and shelving. When lit with 2 edges of LED's will illuminate evenly up to 14" in width

Part#: BLPS-1248

FREE Sample Kit

BLPS-FSK

Includes the following:

- Small piece of acrylic
- 6" square of Brite Light Sheet
- 5" piece of 3014 LED Ribbon
(works with any 12 volt transformer)

Foil Tape (Optional)

- Function: To Prevent light from escaping, thus providing maximum brightness
- Non conductive tape
- 3/8" x 10' per roll

LED-ALUTAPNC-375

Deluxe Kits

BLPS-KIT

Includes the following:

- 2 ft. of 12V *Ultra* Brite LED Ribbon
(Cool White, 3014 Chip)
- 2 ft. of 12V *Standard* Brite LED Ribbon
(Cool White, 3014 Chip)
- 1 ft. x 2 ft. of Brite Light Sheet
- 1 piece of 2 ft. Aluminum Channel
(L-Task-149)
- 1 Power Supply

BLPS-KIT-DIM

Includes the following:

- 2 ft. of 12V *Ultra* Brite LED Ribbon
(Cool White, 3014 Chip)
- 2 ft. of 12V *Standard* Brite LED Ribbon
(Cool White, 3014 Chip)
- 1 ft. x 2 ft. of Brite Light Sheet
- 1 piece of 2 ft. Aluminum Channel
(L-Task-149)
- 1 Power Supply
- 1 Inline Dimmer

THE ART OF BACKLIGHTING

Auragami[™]

The high LED density (332 LEDs per square foot) combined with a decreased individual LED brightness, eliminates hot spots and "dotting," allowing for as little as 3/8" of clearance between the Light Sheet and the translucent material. Auragami's unique power distribution grid allows you to cut groups, or even single LEDs, from the flexible sheet while maintaining a resilient circuit to the remaining diodes. Cut lines on multiple axis (horizontal, vertical, and diagonal) to maximize customization.

Flexible & Cuttable

Can be folded over countertop edges, other multi-plane elements, or wrapped around columns and other curved surfaces

ILLUMINATED SURFACES

Auragami is ideally suited for onyx, quartz and many manufactured materials into lit counter and bar tops, curved surfaces and low clearance applications. This light sheet provides extremely uniform illumination with as little as 3/8" installation depth for countertops.

Specs

- 24V
- IP65
- UL Listed
- Fully Dimmable
- Natural White (5300K)
- 9.25" x 19.8" Sheet Which Is Cuttable As Small As 5/8" x 5/8" Square

CUTTABLE

A low voltage UL Listing allows for on-site customization which can eliminate custom order lead times. Cut LEDs from any part of the sheet to avoid obstacles without interrupting power to the rest of the sheet, while maintaining UL Listing. When discrepancies occur between drawing specs and field measurements or when changes need to be made, on-site customization avoids delays!

Connect

Auragami sheets interconnect quickly and easily with included sheet-to-sheet connection wires. Connect up to eight sheets in any arrangement while operating within Class 2 guidelines. Integrated 2-pin connection blocks eliminate the need to solder and speed installation.

Auragami Flexible LED Sheet

Panel Size: 9.25" x 19.8"

Material: Polyimide with a Conformable Coating Layer (Silicon Based)

Included with Each Sheet:

- A: 2-.71" Sheet-To-Sheet Connection Wires
- B: 2-3.74" Sheet-To-Sheet Connection Wires
- C: 8-Domed Spacing Bumpers with Silicone Adhesive Backing

IP65 Auragami
Provides Protection From Dust & Splashing Water, Not Submersible

Introducing “The Original”
Quadmod LED Panel Light

Customized lighting solutions are just a “SNAP” away with the Quadmod Panels. Sold in 12” x 12” squares, the razor-thin (1.65mm thick) panels can be snapped down to 3” x 3” squares.

Backlighting your signs or surfaces requires just 1”-2” separation between panel and surface being illuminated (depending on the substrate density) for even illumination.

24V & Fully Dimmable

Offered In 6500K

Easy to use connectors & accessories make installation fast & simple

Limited 3 Year Warranty

Direct
Connection

Connecting
Cable

End-to-end connection using our simple DIY connectors and connecting cables. *(no soldering necessary)*
Can connect up to 12 panels on one power supply.

Achieve versatile sizes & shapes

Nova Backlighting System

The Original Edge Lite Panel

The Nova Backlight System can be customized per order for a wide variety of applications

- *Material: Optical Grade PMMA Acrylic*
- *Super bright and long lasting up to 70,000 hours*
- *Integrated thermal management will ensure maximum life span and even illumination throughout*
- *Limited 3 Year Warranty*

Customizable

The Nova sheet can be custom manufactured in most sizes, shapes & light color options

Signage

Ultra Thin...
No Required Installation Depth

Ceiling

Durable... Strong

Countertops

Illuminate Any Translucent Material

Flooring

Damp Location Option Available

Wallsapes

Less Build Up... Save Time & Money
No Frame or Housing

Store Interior

Even Illumination... No Dark Spots
Substrate can lay directly on the Nova sheet panel

Nova Backlighting System

Material: Optical Grade PMMA Acrylic

THE TECHNOLOGY

Nova sheet utilizes a patented 3-D v-groove etched grid pattern to create a bright and uniform illumination across the entire surface of the panel.

The Nova sheet utilizes superior quality 12V constant voltage LED's. The LED's are integrated into the perimeter of the panel without the use of framing materials.

The built in heat sink will ensure that the panel will last the life span, 70,000 hours!

Power Linking Cable

Required for power supplies

Part #	Description	Overall Length	Finish
LED-WALL-PWL	Connects from power supplies to wall washer	12"	Black

Klem Light Fixture

Material: Metal

- **Lightweight But Extremely Durable!** Stainless Steel Arm with Nickel Plated Zinc Components and Highly Polished Aluminum Shade.
- **Safe For Museum Pieces!** LED Bulbs do not emit damaging heat.
- **Easy To Use!** Each fixture is uniquely designed for ease of fixation.
- **No Power Supply Required!** 120V, simply plug into any outlet. Black power cord is 10 feet long with 3-Prong plug.
- **Versatile and Portable!** The light head clamp can be adjusted to various angles for the greatest potential of any exhibit.

Lighting Specifications

LED	
Color Temperature	CW: 5000K WW: 3000K
Beam Spread	40°
Lumens	360 per fixture
Color Rendering Index	80
Constant	Voltage

Paneo®: Top Panel Mounted (Two-Piece Bracket Assembly & Mounting)

Mount to panel by hooking the light fixture into a base unit affixed invisibly to the rear edge of the panel.

Part #	Description
	<i>Cool White (*CW) & Warm White (*WW)</i>
205-P	Paneo® Exhibit Light Fixture
205-P-LED-*	Paneo® Exhibit Light Fixture With 5W LED Bulb

Imago®: Surface Mounted

Part #	Description
	<i>Cool White (*CW) & Warm White (*WW)</i>
210-I	Imago® Exhibit Light Fixture
210-I-LED-*	Imago® Exhibit Light Fixture With 5W LED Bulb

"Center Stage" Exhibit & Display Lights

Super bright, energy efficient & cost effective LED option for showcasing your exhibit, display & products

Material: Aluminum

- Super bright- comparable to an 150W halogen bulb
- Energy efficient only 21W
- Includes On/Off switch at the base of the fixture
- Includes a 10' long power cords with a 3 prong plug
- Nominal 18" overall length
- The light head will swivel approximately 360° and will rotate down or up 45°
- Sturdy, but light weight aluminum construction with a protective acrylic lens
- Light head measures 5-3/4" x 2-1/2"

Part #	Color Temp	Finish	Length	# Of LED Chips	Total Wattage
LED-EXL21-BK	Cool White	Black	18" (Nominal)	50	21
LED-EXL21-SL	Cool White	Silver	18" (Nominal)	50	21

Lighting Specifications

Color Temperature	CW: 6000K-7000K
Beam Spread	120°
Lumens	CW/WW: 1600
Color Rendering Index	70
Rated Average Life	36,000 hrs.
Constant Voltage	
Chip Size	5630

Mounting Clips (Required)

Small Clamp

- Clamps up to 1-3/16"
- Material: Aluminum

LED-EXL-SC-*

Black (*BK) & Silver (*SIL)

Large Clamp

- Clamps up to 1-3/4"
- Material: Aluminum

LED-EXL-LC-*

Black (*BK) & Silver (*SIL)

Cabinet Mounting Plate

- Screw mount to the top of a cabinet
- Material: Aluminum
- 1/4" Screw Hole, Screws Included

LED-EXL-CP-*

Black (*BK) & Silver (*SIL)

Channel Letter Lighting System: The New Generation Of Channel Letters

Available Lengths: 30', 37' & 49'

Material: Polycarbonate Housing

- NEW LED modules innovatively designed for indoor & outdoor lighting
- Widest, most even spread of light, to work in shallow and deep cans
- Offers the most even lighting technology available
- UV/IR protected and IP67 rating to handle extreme weather conditions
- Mounts with supplied 3M adhesive on the back or can be fastened with screws (Not Supplied)
- Limited 5 Year Warranty

LED-YOCL-UCW (Up To 125 Lumens Per Foot)

Lighting Specifications	
Color Temperature	UCW: 7500K
Beam Spread	180°
Lumens	125 per ft
Color Rendering Index	70+
Rated Average Life	50,000 hrs.
Constant	Voltage
Chip Size	2835

Part #	Color Temp	Description	Length	# Of LED Chips	Total Wattage
LED-YOCL-UCW	Ultra Cool White	80 pc. module string	30'	3	40W (.50W per mod)

LED-ANPCL-UCW (Up To 205 Lumens Per Foot)

Lighting Specifications	
Color Temperature	UCW: 7500K
Beam Spread	180°
Lumens	205 per ft
Color Rendering Index	70+
Rated Average Life	50,000 hrs.
Constant	Voltage
Chip Size	3030

Part #	Color Temp	Description	Length	# Of LED Chips	Total Wattage

For Product Details & More Power Options, See Pages R-133~137
Other Options: Plug In | Hardwire | Hardwire Dimmable | Rechargeable Battery

RGB Channel Letter Lighting: The New Generation Of Channel Letters

Available Lengths: 30'

Material: Polycarbonate Housing

- NEW LED modules innovatively designed for indoor & outdoor lighting
- Latest LED chip technology = maximum brightness output
- Smart RGB controller offers a multitude of programmable patterns
- High IP67 rating to handle damp weather conditions
- Mounts with supplied 3M adhesive on the back or can be fastened with screws (Not Supplied)
- Limited 3 Year Warranty

Endless Possibilities of Colors

7 Solid Colors

RED	BLUE
PURPLE	WHITE
GREEN	YELLOW
CYAN	

LED-TRICL-RGB

Module Dimensions: 2.83"L x .79"W x .55"D
60 Modules per 30' Coil (.72 watts per mod)

Lighting Specifications

Color Temperature	RGB
Beam Spread	160°
Color Rendering Index	70+
Rated Average Life	50,000 hrs.

For Product Details & More Power Options, See Pages R-133~137

Other Options: Plug In | Hardwire | Hardwire Dimmable | Rechargeable Battery

Smart Controller (SPI)

RGB Channel Letter WiFi-28 Preset Programs & 80+ SPI Programmable Functions

LED-TRICL-CTRL

Features:

- 8A / 12V / 100W
- Receiver Size: 5"L x 3.34"W x 1.23"H
- Max Length: 150'
- Output Signal: SPI
- Input: Female DC 5.5
- Output: Ethernet CAT5E
- Mounting: Screw
- Remote Control Function: WIFI
- Limited 3 Year Warranty

Controller Functions:

Create a strobing, chasing, flashing, meteor & curtain effect!

- Racing Patterns
- Wave Patterns
- Jumping Patterns
- Strobing Color Combination Patterns
- Static/Color: 7 Options (Red, Green, Blue, Purple, Cyan (Aqua) & White)

LED Power Supplies

Our high quality power supplies have many safety features. Reference individual series, the safety features are defined below.

CLASS 2: Refers to the NEC- National Electric Code. To avoid potential cable overheating due to excessive currents and electric shock, the output of the power supply is limited to 60VDC or 100VA. (100W when used with an AC-DC power supply)

CLASS II: Referring to a power supply with either a double or reinforced insulation barrier between the input and the output. Class II power supplies will have a double square symbol.

LEVEL VI: Increase efficiency and reduced "no-load" power consumption.

SHORT CIRCUIT PROTECTION: A protection circuit that limits current and acts as an electronic circuit breaker, unit returns to full functionality when the short is removed.

OVERLOAD CIRCUIT PROTECTION: A protection circuit that prevents the output current from exceeding maximum ratings.

Wall Mount

- Certification: UL, ROHS, FCC
- Input Voltage: 100V - 220V
- Operating Temperature: 32° - 104°
- Frequency: 50HZ - 60HZ
- Constant: Voltage
- IP Rating: IP20
- Indoor Use
- Plug Type: Polarized 2 Prong
- Output Cord: DC 5.5
- Warranty: Limited 2 Year
- Housing Material: ABS Plastic

LED Dimmers

- Lutron dimmers work with our magnetic low voltage & TRIAC hardwire dimmable power supplies
- Range of dimming depends on the led light (most LED's will not dim to 0)

- Wall plates sold separately
- Fits most standard wall plates
- Works with Nova Sheet

- IP Rating: IP20
- Limited 2 Year Warranty

LED Controllers & Amplifiers

Standard RGB Controllers

Works With All Wall Mount & Desktop Power Supplies

A. Super Small RGB Controller With Up To 20 Color Changing Functions

Controller Functions:

- Static: 20 Options
- Brightness Adjusting: 19 Options

B. Small RGB Controller With Up To 5 Color Changing Functions

Controller Functions:

- Flashing: 1 Options
- Gradual Color Change: 2 Options
- Color Jumping: 2 Options

C. RGBW Controller For 4 in 1 Ribbon

Controller Functions:

- Static: 3 Options
- Flashing Strobe: 4 Options
- Gradient Change: 2 Options
- Brightness Adjusting: 8 Grades
- Color Jumping: 5 Options

D. RGB & CCT Controller For 5 in 1 Ribbon

Controller Functions:

- Gradient Change: 11 Grades
- Brightness Adjusting: 20 Grades
- Fire Simulator
- 4 Zones

E. LED Controller and Remote Set for RGB Ribbon

Controller Functions:

- Gradual Color Change
- 7 Color Jump
- Dimming
- Static Colors

F. LED Controller and Remote Set for RGBW 4-in-1 Ribbon

Controller Functions:

- Gradual Color Change
- 7 Color Jump
- Dimming
- Static Colors

Works With All 12V & 24V Standard & RGB Lighting Wireless Radio Frequency Dimmers

Now You Are In Control

Now You Have Greater Control Of Your Lighting Design With Our 10 Zone Dimmer
By Pairing Multiple Controllers To One Receiver Or Several Receivers To One Controller

- No Wiring Needed
- Each dimmer is paired to the included receiver.
- Unlike infrared receivers which operate on line of site, our radio frequency sends signals thru any obstacles, such as: walls, cabinet doors, furniture, up to 50 ft. away from receiver.
- Dimmer controller runs on a battery (3V CR302 included) for all styles
- Battery Life: 3 Years
- Freedom to position controller anywhere
- Dimmer Range: 10-100%
- Dimmer Type: PWM
- Push button on/off function for all styles
- Limited 3 year warranty
- IP Rating: IP20

Horizon LED Ceiling Panels: Edge To Edge Uniform Lighting

Material: White Powder Coated Aluminum Frame with PMMA LGP & PS Diffuser

- The PMMA provides a 5-8 year life span without turning yellow. The PS diffuser offers a 90% light transmission.
- Save money on energy costs, due to low wattage consumption
- Save money on maintenance costs, as average rated life is 50,000 hours
- Easy to install- drop in, suspended install options or surface mount with included clips
- Instant on, no delay, no flickering of light or buzzing noise, as with fluorescent lamps, 90% power factor
- Ideal for commercial applications because no RF interference, no UV or IR radiation & mercury free!
- Includes dimmable power supply, 0-10V dimming
- 5 Year Manufacturer Warranty

DISCONTINUED

THD	< 15%
Input Voltage	AC 100-277V

PACKED 2 PER CARTON - BROKEN BOX FEE (#BB10)

LED Power Supplies

Our high quality power supplies have many safety features. Reference individual series, the safety features are defined below.

CLASS 2: Refers to the NEC- National Electric Code. To avoid potential cable overheating due to excessive currents and electric shock, the output of the power supply is limited to 60VDC or 100VA. (100W when used with an AC-DC power supply)

CLASS II: Referring to a power supply with either a double or reinforced insulation barrier between the input and the output. Class II power supplies will have a double square symbol.

LEVEL VI: Increase efficiency and reduced "no-load" power consumption.

SHORT CIRCUIT PROTECTION: A protection circuit that limits current and acts as an electronic circuit breaker, unit returns to full functionality when the short is removed.

OVERLOAD CIRCUIT PROTECTION: A protection circuit that prevents the output current from exceeding maximum ratings.

ENOLED Magnetron Ultra Compact LED Power Supplies

- **ULTRA Compact Case**
- **Certification: UL Listed - Class 2**
- **Dimmable with any Triac / ELV Dimmer Switch**
- **Dim Down to 1%**
- **Overload and Short Circuits Auto-Reset Protection**
- **Up To 96W**
- **Damp And Dry Location**
- **Warranty: 6 Year**
- **Operating Temperature: -40°F -104°F (-40°C- 40°C)**
- **Constant Voltage**

DP COBX24

Available Lengths: 12", 24", 36", & Nominal 46"

Material: Aluminum Housing with Frosted Lens

- COB LEDs create a seamless line of light - no visible hotspots
- Used For: Cove Lighting, Cabinet Lighting & Shelf Lighting
- Uses smaller DC 3.5 connector
- Low profile can be easily hidden
- Excellent heat sink
- Mounting clips & screw included
- Joinable by middle and right angle connector
- Easy Installation
- 5 Year Warranty

Accessories for MAGIC Flexible LED Sheet

Required

Power Supplies (IP20)

Part #	Type	Amps	Volts	Watts	Dimensions
LED-24V-3A	Desktop	3A	24V	72W	4.68"L x 2.34"W x 1.48"H
LED-24V-4A	Desktop	4A	24V	96W	6.77"L x 2.83"W x 1.57"H

For Product Details & More Power Options, See Pages R-133~137
Other Options: Plug In | Hardwire | Hardwire Dimmable | Rechargeable Battery

24V

Accessories for MAGIC Flexible LED Sheet

Required

Option 1: Standard RF Controller With Wall Dimmer

Standard Receiver

Included With Every Dimmer

- 3.5" L x 1.375" W x .75" H
- 12V/8A/96W or 24V/8A/192W
- Input Cord: 18" DC 5.5 Female
- Output Cord: 18" DC 5.5 Male
- Standard Dimmer: 10 - 100%

Part #	Description
Standard RF Dimmer Kit	
RF-CTRL-WT	Wall Style Dimmer With Receiver
Individual Parts For Standard	
RF-RECVR	Receiver
RF-WALL	Wall Style Dimmer

Wall Dimmer
No Wiring Needed
Fits Over A Standard Receptacle Box
 3.5" L x 1.37" W x .75" H
 Mounting: Wall
 Battery Operated
 Finish: White Case w/Silver Button

Option 2: RF CCT Controller With Wall Dimmer

Receiver

Included With Every Dimmer

- 7" L x 1.75" W x .75" H
- Female DC 5.5 Input Cord: 18"

- Each dimmer is paired to the included receiver. However, multiple dimmers can be paired to one receiver. (Instructions included in package)
- Range of Dimming: 10%-100%
- Push Button On/Off Function
- All dimmers work up to 50' away from receiver
- All dimmer controllers run on battery
- Limited 3 Year Warranty
- Radio frequency goes through walls

Easily installs into standard receptacle box. Attaches with 2 screws.

Wall Dimmer
No Wiring Needed

Option 3: RF LED Controller and Remote Set for RGBW 4-in-1 Ribbon

LED-RGBW-CR2

Features:

- 6A / 24V / 144W
- Input Wire: Female DC 5.5 / Port
- Output Wire: Screw Terminal
- Controller Size: 3.82"L x 1.46"W x 1.10"H
- Color: White

Controller Functions:

- Mounting: Screw
- Remote Control Function: RF
- Gradual Color Change
- 7 Color Jump
- Dimming
- Static Colors

For More On Radio Frequency Dimmers, See Pages R-147-149

Optional

Power Linking Cable

Required to connect from power supplies, dimmers & multi output cables to light panel

BLS-MA-PWL-DC5
18" Power Cable with DC5.5 end
For use with BLS-MA-CW-IP20 sheets

BLS-MA-PWL
10" Power Cable
For use with BLS-MA-CW-IP20 sheets

BLS-MA-PWL-CCT
10" Power Cable
For use with BLS-MA-CCT-IP20 sheets

BLS-MA-PWL-RGBW
10" Power Cable
For use with BLS-MA-RGBW-IP20 sheets

Connecting Cables

Able to get around unlit areas without multiple power supplies

For use with BLS-MA-CW-IP20 sheets

Free Cut MAXX LED Light (Indoor/Outdoor): No Power Supply Needed!

Can Run Up To 164 Ft. On One Power Cord
 Available Lengths: 33', 82' & 164'
 Material: Flexible PVC

- Ideal for applications in which longer lengths are desired
- Includes a factory sealed 2 ft. power cord & end cap
- Consistent binning/color
- Free Cut. Cut anywhere on this strip without affecting the rest of the strip.
- Dimmable
- Limited 2 Year Warranty

IP66 Free Cut MAXX LED Light
 Provides Protection From Dust & Powerful Jetting Water, Not Submersible

Our Free Cut MAXX LED Light products are ETL certified and warranted as non-cuttable. If a customer does cut the product, they do so at their own risk.

120V PLUG

NO POWER SUPPLY NEEDED
